

# Flexi Offers An Industry Leading BPO Accounting Outsourcing Solution

---

SHELTON, CT, UNITED STATES, May 23, 2018 /EINPresswire.com/ -- For 25+ years, Flexi has been the accounting software of choice for BPOs and FAO solutions around the world. Flexi understands that every [BPO](#) is unique and Flexi's business model provides the flexibility to meet your specific needs regarding technical functionality, licensing terms, deployment or support options.

With Flexi as your partner, you can be assured that your [accounting platform](#) continually provides your customers with the state-of-the-art features they are looking for, such as:

- \_ Workflow automation
- \_ Continuous close capabilities
- \_ Real-time financial reporting
- \_ Multi-entity consolidations
- \_ Built-in audit and compliance features

## Powering the Success of BPO and FAO Solutions

Flexi may be the biggest, most trusted [accounting software company](#) you've never heard of – which means its partner network is doing its job. Flexi's financial management software is the platform behind Finance and Accounting Outsourcing solutions by BPOs, and industry-specific technology providers like Acturis. Flexi's software is also private labeled throughout the world by companies such as McKesson, StoneRiver (formerly Fiserv), MajescoMastek, and Molina Healthcare (formerly a division of Unisys).

## About Flexi.com

In the early 1990s, the founders of Flexi had the primary goal of providing companies with a non-proprietary, feature-rich accounting system that could be scaled to handle millions of transactions. But, the founders wanted the software to remain flexible enough to handle the unique requirements of any company. This is how Flexi was born.

Flexi, headquartered in Shelton, CT, has 25 years of experience designing top of the line accounting solutions. Flexi solutions have been installed at more than 800 locations worldwide and the company has a long track record providing accounting solutions to businesses in all industries. Flexi solutions enable your business to increase productivity, reduce costs, and provide the analytics needed to make informed decisions so you can grow your business.
