

NetHunt CRM for Gmail Partners with Zapier to Launch Integration with 1000+ Popular Apps and Services

After a year in beta, the NetHunt app on Zapier is now live for everybody

KYIV, KYIV REGION, UKRAINE, May 25, 2018 /EINPresswire.com/ -- NetHunt CRM, a smart inbox for Gmail and Google Apps, announced today that it has joined forces with a leading integration

platform <u>Zapier</u> to allow for the integration with over 1000 apps and services in a simple and efficient way.

Zapier integration has become a lifesaver for many users of NetHunt. Our aim is to help users connect sales-related data across the G Suite apps. Zapier integration adds a thousand apps to the mix."

Andrei Petrik, CEO & Co-Founder at NetHunt. After having spent almost a year in the open beta stage, NetHunt CRM leaves the label "beta" behind. This means that NetHunt CRM users can now create their own integration or choose from a variety of popular pre-made integrations called "zaps" without leaving the NetHunt CRM app.

Users can automate and optimize their workflows by integrating almost any service they rely on in their business activities in conjunction with NetHunt CRM. Now, aside from natively integrating NetHunt CRM with Gmail, Drive, Calendar and other G Suite apps, it's possible to integrate NetHunt with

Slack, MailChimp, Xero, Todoist, Jira and many other popular apps and services. All the available integrations can be found on Zapier hosted <u>Zapbook for NetHunt</u>.
