

## xFyro Introduces ARIA - The Most Advanced Waterproof Wireless Earbuds Ever

Bluetooth 5, waterproof, dustproof, autopairing, and with 32-hour battery life at an unbeatable price

NEW YORK, NY, USA, May 23, 2018 /EINPresswire.com/ -- xFyro introduces ARIA, the next generation in wireless earbuds that brings industry-leading technology to the everyday consumer by creating the most immersive listening experience with a waterproof product that was made to keep up with every lifestyle. With Bluetooth 5, an IP67 waterproof rating, noise cancellation, access to virtual assistants and more, xFyro's Aria is the newest must-have in audio tech.

xFyro ARIA comes with additional eartips and wing tips to ensure a perfect fit

The game-changing <u>xFyro ARIA Wireless Earbuds</u> are now live on Indiegogo. These premium wireless earbuds integrate a host of premium features, offering state-of-the-art speakers with a touch-activated microphone, in-ear detection, volume control, and automatic pairing.

Sound quality, features and product integrity are of utmost important to us because this is what's important to our customers"

From a technical perspective, ARIA is one of the most advanced wireless earbuds ever. It uses the latest Bluetooth 5 technology for unparalleled connectivity range and high-speed data transmission for a seamless listening experience - completely removing audio-video sync issues plaguing earbuds with older technology.

xFyro

xFyro's ARIA also has advanced features not seen in most other earbuds, such as stereo calling, dual beamforming

microphones and high-speed charging that enables up to 3 hours of listening time after a quick 15 minute charge. It features an astounding 8 hour battery life per charge and 3 additional charges with its carrying case for a total of 32 hours of battery life. It's one step pairing process also makes paring incredibly simple, and it can even automatically pair to multiple devices right out of its case. Even volume control and access to Google Assistant and Siri requires no more than a tap of a finger, making ARIA one of the most advanced headphones on the market today.

Along with these premium features, Aria was engineered to deliver astounding sound quality that will shock listeners when considering its price point compared to competitors. ARIA is available now for less than half its retail price at an impossible-to-beat early-bird pricing on Indiegogo.

Designed for convenience and comfort, research and development engineers conducted extensive

trials among thousands of ears across six continents to ensure ARIA can achieve a comfortable and secure seal in every ear with its unique system combining the use of both earbud tips and wing tips.

The xFyro team responded in detail to many inquiries; but, emphasized the primary focus of xFyro's business model. "Sound quality, features and product integrity are of utmost important to us because this is what's important to our customers. We're committed to excellence and delivering an amazing product and customer experience. Sure, we've got tough competition but it's tough to beat our service, technology and price."

## About xFyro

xFyro has offices in Los Angeles, New York and Hong Kong. The company was originally founded by a group of audioloving engineers and musicians based in Los Angeles who came together to serve a common purpose: create amazing quality products with cutting edge technology without all the gimmicks. Their focus is simple-- just great technology and sound. xFyro products are available on <a href="https://www.xfyro.com">www.xfyro.com</a> and now on Indiegogo for limited-time pricing.

xFyro ARIA is 100% Waterproof and can even be used while showering

xFyro ARIA Wireless Earbuds
