Important Note from The Lung Cancer Asbestos Victims Center: "About 150,000 US citizens will be diagnosed with lung cancer this year. We believe about 15% of this group probably had medium to heavy exposure to asbestos at their workplace or while serving in the US Navy. We would like to help these people get compensated if possible. We need to make it clear we are not only talking about mesothelioma - we are talking about people with lung cancer. The lung cancer asbestos exposure compensation we are describing could be in the tens of thousands to hundreds of thousands of dollars as we would like to explain anytime at 800-714-0303.

"If you have a friend or loved one with lung cancer and you know they had heavy exposure to asbestos at work or while serving in the US Navy please share our contact information with them." <http://LungCancerAsbestosVictimsCenter.Com>
