

THREE Top-Quality Fucoidans (Mozuku, Mekabu & Fucus) to Support Your Immunity by Dr. Susana Trujillo

Doctors across the globe are supporting the fact that Fucoidan extracts hold a little-known secret that could change the way we think about immune health.

NEW YORK, NEW YORK, UNITED STATES, June 7, 2018

[/EINPresswire.com/](http://EINPresswire.com/) -- When it comes to products that enhance the immune system, there are plenty floating around the Internet. But recently, I've noticed

certain Fucoidan brands are gaining steam. While it's true that there are some Fucoidan cocktails that don't offer the ideal amount of Fucoidan for your body, there are other high-quality brands that really stand out because they offer the consumer the highest premium option.

“

Fucoidan is found in many forms of brown seaweeds and the best quality fucoidan (Mozuku, Mekabu and Fucus Fucoidan) can be found only in 'specific clean and pristine areas' around the world.”

Dr. Susana Trujillo

At the same time, there seems to be a lot of misinformation about the exact benefits of distinguishing the concentration, potency and Fucoidan species in each brand. It has been challenging to find a brand that combines the best-in-class Fucoidan extracts to help achieve an optimal health.

I've long supported the consumption of natural/Organic Fucoidan extracts for immune health and I recommend to my clients and patients to look for the following best three Fucoidan extracts:

1. Mozuku Fucoidan (*Cladisiphon okamuranus*)
2. Mekabu Fucoidan (*Undaria pinnatifida*)
3. Fucus Fucoidan (*Fucus vesiculosus*)

Together, these three Fucoidan extracts — Mozuku, Mekabu, and Fucus — represent a remarkable synergy that can be found in only one brand.

Introducing Fucoidan 3-Plus...

A First-of-Its-Kind Fucoidan Supplement that Combines

THREE Potent Natural and Healthy Extracts

Fucoidan 3-Plus is a breakthrough capsule supplement making use of cutting-edge, proprietary extraction techniques to harness the health-boosting power of Fucoidan (an active and potent ingredient found in brown seaweeds like Mozuku, Mekabu and Fucus).

Literally nothing like it exists on the market!

It's the first supplement of its kind to powerfully support healthy immunity function, and the first supplement ever to combine advanced extracts of these three ingredients in a single capsule product. It is not available in stores or on any other websites. It is only available from one company.

What's special about Fucoidan 3-Plus is how it takes the three strongest agents produced in the natural world and extracted from three very specific brown seaweed species (Mozuku, Mekabu and Fucus) that promote healthy immune levels.

Three Reasons Behind the Benefits of Combining THREE Fucoidan Extracts

(Mozuku, Mekabu and Fucus)

REASON#1: Contains an effective amount and concentration of Fucoidan from each brown seaweed.

The true health-boosting power behind these three Fucoidan extracts (Mozuku, Mekabu and Fucus) is in the unique active molecules at the perfect amount and concentration to have a positive effect in the immune system. Unfortunately, simply consuming the brown seaweeds themselves can never provide the concentration of these compounds necessary to promote a healthy immune function. By consuming 1 capsule, the consumer is getting 250 mg of pure and highly concentrated Fucoidan (From Mozuku, Mekabu and Fucus). Now imagine how well your body will feel if you take 4 capsules per day or the equivalent of 1 gram, which is what we usually recommend as a daily routine for better health maintenance.

A proprietary extraction process allows to include a generous quantity of each active compound in Fucoidan 3-Plus, ensuring you get the most effective formula possible.

REASON#2: Contains Fucoidans extracted from high-quality brown seaweeds (Mozuku, Mekabu and Fucus)

Fucoidan from Mozuku (Cladosiphon okamuranus)

This compound has been scientifically proven to support a healthy immune response with potential gastric protection, anti-inflammatory properties and many cancer patients have relied on its health benefits to alleviate the side effects caused by some conventional treatments. And more and more evidence is discovered daily that shows what a health powerhouse Mozuku really is.

Fucoidan from Mekabu (Wakame) (Undaria pinnatifida)

Used for centuries in traditional natural medicine, Fucoidan extracted from the brown seaweed Mekabu (Wakame) is now being praised by doctors for its amazing ability to promote a healthy immune function. At the same time, Mekabu Fucoidan has been greatly studied for its antitumor activity and anti-inflammatory properties.

Fucoidan from Fucus Fucoidan (Fucus vesiculosus)

Fucus Fucoidan extract was historically used for its medicinal and herbal properties. Some of the medicinal effects of Fucus include a positive antioxidant effect. But now medical scientists are finding it could be useful for far more than that. It's been proven as a powerful natural substance for maintaining a healthy immune function in the body.

REASON#3: Provides amazing benefits to support a healthy immune system

If your goal is to live a long and healthy life, unhealthy levels of inflammation and a low immune system could break your chances of achieving that goal.

Here are all the amazing benefits of supporting a healthy immune function in your body:

- Promotes healthy cells (a great way to prevent cancer)
- Promotes your heart health
- Maintains healthy joints and bones
- Boosts healthy digestion
- Maintains brain health and function
- Supports healthy skin (particularly good if you undergo any conventional treatment)
- Promotes a healthy sleep/wake cycle
- Maintains healthy lungs
- Supports hair growth (particularly good if you undergo any conventional treatment)
- Promotes healthy antioxidant activity
- Supports your body to get rid of toxins

See how having a strong immune system can benefit almost every part of your body? Even your cells are will benefit! And that's why a healthy immune system has everything to do with health and longevity...

Who Should Take Fucoidan 3-Plus?

Anyone who wants to do everything in their power to live their longest, healthiest life should consider Fucoidan 3-Plus.

If you want to support a healthy immune function, what better way than to spread these powerful health-boosting compounds throughout your whole body? That's precisely what the encapsulated formula of Fucoidan 3-Plus (Mozuku, Mekabu and Fucus) aims to do.

A precise blend containing extracts of potent Mozuku Fucoidan, Mekabu Fucoidan and Fucus Fucoidan are suspended in dry form and then precisely encapsulated.

Additionally, the Fucoidan extracts (Mozuku, Mekabu and Fucus) used to produce Fucoidan 3-Plus are exceedingly rare, and the number of suppliers worldwide is rather small. Add to that the fact that this brand is only using Natural and/or Certified Organic Fucoidans who meet our high standards for production.

As you can see, there's really nothing like Fucoidan 3-Plus on the market today!
