

# Bigfoot Project Investments Proudly Presents: "Brutal Bigfoot - Mutilations and Mutations"

*Brutal Bigfoot - The First of Five Films Is Ready for Release - The Official Release Date Will Be Announced Soon*

REDWOOD CITY, CA, US, May 30, 2018 /EINPresswire.com/ -- Bigfoot Project Investments Inc. a public company traded on the OTC Markets under the ticker symbol BGFT has produced the first of the five feature length films in the Brutal Bigfoot series. For those who have wondered if the creature known as Bigfoot had a darker side the Searching for Bigfoot Team has compiled their list of most compelling stories and will present the investigations of these violent encounters in the Brutal Bigfoot series.

In the first feature length film the Searching for Bigfoot field team – led by “The Godfather of Bigfoot” Tom Biscardi, get more than they bargained for when investigating the disappearance of a hiker and the mutilation of a couple deep in the remote Arkansas countryside in Brutal Bigfoot: Mutilations and Mutations. The film is the first release under the “Biscardi Bigfoot Brand” banner, a new label of True/Found, a releasing company dedicated to found footage and “caught-on-camera” feature films and documentaries.

Brutal Bigfoot: Mutilations and Mutations follows Biscardi and his team as they venture to the grounds of SEFOR – an actual top secret nuclear testing facility that has been closed, due in part to rumors that mutated creatures reportedly inhabit the woods surrounding the compound, creatures that were created by science-gone-wrong at SEFOR. Along the way they gain the unwanted attention of unknown government agents who watch their every move as they search for the truth behind brutal deaths and strange disappearances that are reported to involve a very large creature.

Brutal Bigfoot: Mutilations and Mutations is the first in a new line of films from Biscardi, movies that will explore true-life dark and violent encounters with cryptids and mysterious beasts across the

United States from Maine to Washington and all parts in between.

“This is a new direction in our entertainment enterprise, a path that will allow for the creation of more new films to add to our best-selling catalog of eight other classic Bigfoot movies,” says Tom Biscardi, president and CEO of Bigfoot Project Investments, Inc. Filming has nearly been completed on the second film in the series, with a total of five movies planned for production and release. “The Brutal Bigfoot films show a different side to the world of mysterious monsters...a side that the public asks us about – and numerous reports confirm happens – all the time. This is an in-demand topic and Biscardi Brand Bigfoot will be the first to expose these stories in a series. We know audiences will enjoy watching every minute.”
