

Systems Consulting Services, Inc (SCSI) partners with LexisNexis Risk Solutions

SCSI Strengthens its Position as the Leader in Multi-Source Third Party Underwriting Data Access

ELLCOTT CITY, MARYLAND, USA, May 31, 2018 /EINPresswire.com/ -- Systems Consulting Services, Inc (SCSI) has joined the LexisNexis® Insurance Alliance Data Delivery program as an [Elite Partner](#). LexisNexis Risk Solutions is a leading provider of data, analytics and technology for the insurance industry. The program represents a robust ecosystem of organizations joining together to better enable the delivery of vast data assets from LexisNexis to clients through their own software and services.

SCSI'S signature product is [jBIAS](#) (Java-based Business Information Analysis System), a turnkey, automated data retrieval software system that aids underwriters in the insurance, credit and factoring industries by accessing and leveraging the most current information available.

By using LexisNexis Risk Solutions, carriers will be able to use this additional data on their quoting, underwriting and processing solutions. It helps insurers, with real-time data being a critical component of any insurance carrier or financial institution, to have access to the extensive choice of LexisNexis Risk Solutions data products. This will allow them to respond quickly to customer requests, and identify new and innovative products to offer them.

“We’re proud to have been selected to be part of such an integral program to LexisNexis Risk Solutions,” said Anne Ostrom, SCSI Vice President and Co-Founder. “It’s a reflection of our commitment as a company to provide the best possible service and products to our customers. This partnership will help underwriters make better informed decisions which inform the quoting process.”

“At LexisNexis Risk Solutions we are committed to better serve our customers by creating strategic alliances with companies that will enhance their customer experience. Alliances like SCSI work in parallel with us to support carriers. They create the software solutions while we provide the data,” said Drew Whitmore, Director, Alliances program, LexisNexis Risk Solutions.

About Systems Consulting Services, Inc.

For over 30 years, SCSI has led the field of underwriting software through dedication to product excellence and outstanding customer service. Headed by Ken Wayman, President, and Anne Ostrom, Vice President, the company has built a loyal customer base largely through word-of-mouth referrals from successful implementations of their flagship product, jBIAS, an automated data retrieval software system for the Insurance and Financial Industries. jBIAS allows customers to quickly retrieve data from data partners such as LexisNexis and leverage this data to provide accurate and timely quote requests. The company is proud to serve over 11,000 users at more than 20 locations across the United States. SCSI has won several awards and distinctions over the years, most recently being recognized as one of the Top 10 Insurance Underwriting Solution Providers for 2017 by Insurance CIO Outlook Magazine.
