

# Puut A/S Launches new crypto currency - BITCOIN LVX (BVX).

*Puut A/S, announced today that it has launched a crypto currency dubbed BITCOIN LVX, to make Bitcoin spendable and to return to energy efficient mining.*

COPENHAGEN, DENMARK, June 1, 2018 /EINPresswire.com/ -- [Bitcoin Lvx](#) is user friendly, scalable, faster and energy efficient compared with existing crypto currencies, and can be mined with a regular computer.

Bitcoin Lvx's mission is to make Bitcoin spendable by scaling block size for faster transactions with capped fees, and to return to CPU-based and energy-efficient mining.

"I am excited to see BLvx becoming a daily medium of exchange for mobile wallet users," said Mark Arthur Founder & CEO at Puut A/S. "BLvx is here to make Bitcoin spendable in a way that is energy efficient, seamless and social" concluded Mr. Arthur.

Bitcoin Lvx is the continuation of the Bitcoin project with upgraded consensus rules. Bitcoin holders as of block 521173 (May 4, 2018 about 13:00 UTC) are also becoming owners of Bitcoin Lvx.

BLvx is here to make Bitcoin spendable in a way that is energy efficient, seamless and social"

*Mark Arthur*

Key features include:

- Fast transactions
- Capped transaction fees.
- Large block size
- Energy-efficient mining

Fast, simple and user friendly

Paying with bitcoin is made user-friendly and seamless with faster transactions ever in Bitcoin history.

Capped transaction fees

Send money globally for at a capped fee per kb.

### Larger block-size

A hard fork coupled with extensive optimization has allowed an increase of the blocksize to 10MB.

### Energy-efficient mining

Bitcoin Lvx is returning to CPU mining by adopting a new PoW algorithm Foxhash.

### About Puut A/S

Puut A/S is a Danish FinTech company that offers mobile wallet services, social finance enablement and content sharing as a service to end-users, service providers and merchants alike. Puut A/S is seeking to bring the experience of a traditional cloud network to mobile devices, a global mobile experience to mobile phone users and an operator and bank agnostic approach to mobile wallet services.

### About Bitcoin LVX

Bitcoin Lvx is a crypto-platform that provide payments, exchanges and remittance in a distributed fashion. Bitcoin Lvx's mission is to make Bitcoin spendable by scaling block size for faster transactions with capped fees, and to return to CPU-based and energy-efficient mining.
