JACKSON HEIGHTS, NEW YORK, UNITED STATES, June 4, 2018

[/EINPresswire.com/](http://EINPresswire.com/) -- During the course of our lifetime we are met with challenges, struggles and unexpected issues. We search desperately for answers to overcome our most difficult moments. We ask ourselves what is our purpose on this planet? What if there was a powerful modality that can help us heal physically, mentally, and emotionally leaving us enlightened and joyful?

Lana Petrov is an expert Quantum Healing Hypnosis practitioner and owner of Quantum Healing Hypnosis in New York.

"For most of my life I have been interested in the metaphysical and occult knowledge and have searched for alternative healing modalities," says Lana. "I finally found all of it in QHHT technique. Through Quantum healing hypnosis the client is first taken on a

journey through past lives and then connects to his/hers subconscious or the Higher Self. When we go back into our past lives we learn how past lives are affecting our lives today and by connecting to our subconscious we find all the answers to our present issues and more."

According to Lana most people have many past lives, because we come to this planet to experience soul growth, but some of our past lives can affect our present by carrying forward past trauma. For instance, if you were killed in a past life your body can hold on to that memory and cause health issue, which could be released through hypnosis.

"With QHHT we can heal not only the body, but our personal struggles," says Lana. "Sometimes we connect to the same people over and over in order to learn a lesson since every life is a learning experience. We all are destined to learn compassion and love and once we learn that we don't come back anymore to this 3D reality, that is very heavy, we can move to higher vibrational places."

Clients seek Lana out for a variety of issues when unanswered questions plaguing their lives. By helping them connect to their subconscious mind Lana provide much needed answers. Through the efficacy of quantum healing hypnosis Lana can resolve client's most pressing and urgent issues such as their health. The subconscious mind is so powerful it can heal a person in an instant if the lesson was learned and the healing is appropriate.

"I connect to their subconscious mind and it contains all the answers," says Lana. "It's very loving and genuinely eager to help. The subconscious teaches us through our intuition and by listening to our intuition we follow our ultimate purpose."

During hypnosis people sometimes connect to the white light of God a healing light that is restorative, soothing and uplifting and helps us conquer our fears and release blockages.

"If we practice being grateful every day for what we have we will create a beautiful reality for ourselves," says Lana. We should all be focused on bringing light to our chaotic planet that needs to be healed and it starts by bringing light to ourselves. What we are doing now is not sustainable and thankfully the new generation are more loving and caring and is looking for a ways to heal the planet and themselves."
