

Acne and Natural Oils: Lilac Corp Recommends NoAcnin, a Natural Treatment for Healthy Skin

Lilac Corp reviews a study on the use of essential oil combinations against acne, and recommends NoAcnin, a natural systemic treatment for healthy skin.

SARASOTA, FL, UNITED STATES, June 5, 2018 /EINPresswire.com/ -- A recent study tested the effect of [essential oils](#) on the bacteria that causes [acne](#). The researchers took two kinds of bacteria that cause acne, *S. epidermis* and *P. acnes*, and grew them in a lab. Then, they tested the effect of 408 different combinations of essential oils on the bacteria. The results showed that Manuka oil in combination with other oils killed the acne bacteria. Ylang ylang oil was also effective. Other oils that were found to be antibacterial were sandalwood and patchouli. The combination of vetiver oil with cinnamon bark oil was the most effective. This study showed that combinations of essential oils may be beneficial in fighting the bacteria that cause acne.

Lilac Corp also proposes to target the latent viruses that infect the [skin](#). NoAcnin is an all-natural supplement made by Lilac Corp that targets these viruses. The treatment was developed by Lilac Corp, the company that invented the unique, highly effective, antiviral natural treatments Gene-Eden-VIR and Novirin. Details on the clinical studies that tested these treatments, and showed their safety and effectiveness, are available on Google, and on <http://lilaccorp.com/>.

The NoAcnin formula was developed by analyzing thousands of scientific studies using artificial intelligence (AI).

Controlling the viruses in the skin helps maintain a healthy

level of DHT and androgen receptor in the skin, which helps the skin rejuvenate. Unlike other acne products, NoAcnin has no side effects.
