

TSI Launches New Line of Noise, Heat Stress and Environmental Instrumentation

TSI is proud to expand its portfolio with industry leading instrumentation from Quest™.

SHOREVIEW, MN, UNITED STATES, June 4, 2018 /EINPresswire.com/ -- TSI is proud to expand its portfolio with industry leading instrumentation from Quest™. In February, TSI announced the acquisition of certain 3M Personal Safety Division offerings primarily focused on noise, environmental, and heat stress monitoring.

TSI showcased the [Quest instrumentation](#) at the American Industrial Hygiene Conference & Exposition (AIHce) last week in Philadelphia, Pennsylvania.

"Our focus is on bringing customers new, innovative products that can help manage noisy environments," said Troy Tillman, Test & Measurement Business Director at TSI. "Quest has a reputation for high quality instruments and service, making it an ideal fit for TSI. As a leader in health and safety instrumentation, we are excited that the Quest products are now part of TSI's offerings."

“

Our focus is on bringing customers new, innovative products that can help manage noisy environments.”
