

HFX announces latest version of its cloud-based SaaS Time and Attendance solution

CIPD HR Software and Recruitment Show, 13 – 14 June 2018, Olympia, London, Stand No: B30

CODICOTE, HERTS, UK, June 5, 2018 /EINPresswire.com/ -- [HFX](#), a leading provider of flexitime and workforce time management solutions, will be showing its latest solutions at the CIPD HR Software and Recruitment Show. New for 2018 is HFX's cloud-based Imperago Time & Attendance (T&A), which is a powerful, flexible and cost-effective solution that is both user-friendly and extremely easy to maintain. Imperago T&A is an all-in-one SaaS package that covers software, hardware, support and maintenance on a pay as you go basis with no upfront capital outlay. Imperago T&A is ideal for companies across all vertical sectors with 200 employees and above, particularly for those with shift-based workers.

“

Once organisations can harness technology to view the hours their staff are working, they are armed with the data to investigate inefficiencies and improve productivity.”

Nick Whiteley, Managing Director, HFX

Also on show will be HFX's market leading Imperago Flexitime Management solution which is the preferred solution throughout the public sector and local government organisations.

HFX's latest innovation, Imperago EveryOneCloud connects people and devices at whatever location, and logs time, supporting workforce planning and Time & Attendance solutions, enabling organisations of all sizes to monitor their staff and productivity. A cloud solution, EveryOneCloud can be ready to go within minutes, with no need for servers, software installation or heavy up-front costs. It integrates with and sends data to T&A, Payroll, Student Attendance and Workforce Management solutions (including rostering & shift

management).

HFX Imperago Access Control provides a 'light touch' approach to securing and monitoring access to workspaces that requires very little infrastructure and significantly reduces the amount of cabling required. The door controlling devices offer the option of either biometric (fingerprint) or proximity readers.

In addition, HFX will be publishing a series of Practical Guides on How to Improve Productivity which will cover everything from capturing hours worked, devising the best working patterns, meeting

customer demand and coping with peaks and troughs, to improving staff engagement through providing more flexible working.

Nick Whiteley, Managing Director of HFX commented: "Once organisations are able to harness technology to gain a handle on the hours their staff are working, they are armed with the data to investigate inefficiencies and start to implement strategies to improve productivity. Our series of papers on the topic of Improving Productivity, provide practical guides tackling different aspects of staff productivity in easily actionable, bite-sized chunks that focus on a quick wins, to gain buy-in and engagement from staff, management and the board."

HFX Imperago solutions integrate with all the mainstream HR systems (including Oracle, SAP, MHR, PeopleSoft, Northgate and Software for People), enabling organisations to manage flexible working, while keeping employee data synchronised across HR and payroll systems.
