

Stack8 to Showcase Solutions that Deliver on the Promise of Digital Communications at Cisco Live 2018

Join Stack8 at Cisco Live 2018, Collaboration Village – Pod C:17

MONTREAL, QUEBEC, CANADA, June 6, 2018 /EINPresswire.com/ -- [Stack8](#), a leading provider of managed and professional services and proactive automation solutions for Cisco Unified Communications (UC) applications, today announced its participation at Cisco Live 2018, June 10-14, 2018, at the Orange County Convention Center.

At this year's event, Stack8 will showcase a wide range of technology advancements and integrations with key industry partners including:

- [SMACS 5.0](#) – The latest release of our Stack8 Moves, Adds, and Changes System offers many new services to help customers overcome the complexities inherent in UC provisioning.

- [Automated Intelligent Booking System](#) – Designed to simplify and improve the process of booking meeting rooms with Webex Teams. The Automated Intelligent Booking System will help you achieve the most optimal utilization of your meeting rooms and thus achieve the highest possible ROI.

• UnifiedFX Integration – Stack8 has partnered with UnifiedFX to bring PhoneView right into SMACS UC Provisioning. When making modifications to a phone, users with PhoneView can quickly view their

changes and control the phone in real-time via a direct link in SMACS.

- Cloud Telephony – Partnership with BroadSoft to offer, BroadSoft UC-One (Telephony) and BroadSoft CC-One (Contact Center) Cloud telephony solutions.

“

This theme is directly aligned with our company's mission, which is to Fight for Our Customers to Achieve the Promise of Digital Communications”

Steven Karachinsky

“At Cisco Live 2018 the theme is Imagine Intuitive. To imagine IT solutions that are intuitive, easy to use, easy to access and offering a great user experience,” explained Steven Karachinsky, CEO of Stack8. "This theme is directly aligned with our company's mission, which is to Fight for Our

About Stack8

We work with Cisco UC customers who need to reduce the cost and complexity of keeping their UC environment running efficiently and want to minimize (or eliminate) user frustrations around system performance.

Essentially, we are Cisco UC specialists, that provides a mix of managed services, proactive automation, and in-depth expertise to address both the mundane and complex Cisco problems, helping organizations maximize both the frequency and range of use of the technology. Unlike traditional Cisco partners, our approach addresses Cisco UC issues, and opportunities more thoroughly, reducing the delays and frustrations that arise when expertise is lacking and helping to identify quick wins to get more value from the system, building confidence and support in the user community.

Founded in 2010, Stack8 Technologies is an independent, privately held company based in Montreal, Canada. To find out more, please visit www.stack8.com.
