IT Governance launches new website and one-stop shop for information security solutions in the Gulf region

ELY, CAMBRIDGESHIRE, UK , June 6, 2018 /EINPresswire.com/ -- Ely, United Kingdom, 2 March 2018 – IT Governance Ltd, the leading global provider of information technology governance, risk management and compliance (IT GRC) services, is pleased to announce the launch of a new website and one-stop shop for the Gulf region.

The IT Governance one-stop shop for the Gulf region – www.itgovernancegulf.com – provides a wide range of information security, data protection, risk management and compliance consultancy services, training courses, software, books and tools. It is designed to help Gulf Cooperation Council (GCC) organisations of all types and sizes improve their information security, implement best-practice business continuity measures and comply with international data protection laws, such as the EU General Data Protection Regulation (GDPR).

About IT Governance

IT Governance has supplied IT GRC services to clients around the world, from small enterprises to multinationals, for over 15 years.

Our comprehensive range of products and services provide a unique, integrated alternative to a traditional consultancy firm, publishing house, penetration testing service or training provider, ensuring clients can get everything they need for their projects from a single source.

We pride ourselves on our ability to serve an international customer base and deliver a broad range of integrated, high-quality solutions globally, while meeting the real-world needs of today's organisations, directors and practitioners.

ISO 27001: The best-practice standard for an ISMS

The core of IT Governance's offering is the ISO/IEC 27001:2013 (ISO 27001) standard, which provides specifications for a best-practice information security management system (ISMS) – a risk-based approach to corporate information security against which organisations can achieve independently audited certification, allowing them to demonstrate to stakeholders that they follow international best practice.

Having led ISO 27001 implementations since the introduction of the Standard, IT Governance has the knowledge and insight to provide valuable advice, tailored to meet any organisation's specific needs or budget. It has helped over 600 clients achieve ISO 27001 certification, proving their compliance with one of the world's most demanding management system standards.

Products and services On www.itgovernancegulf.com, organisations in Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the UAE can find products and services, including consultancy packages, Live Online and in-house training courses and tools. This includes:

* Flexible, fixed-price ISO 27001 implementation packages >>

* Live Online and in-house ISO 27001 and information security training courses >>

* Staff awareness e-learning training courses >>

* Documentation toolkits, containing expert guidance and customisable templates to save time and money implementing management systems >>

* Specialist software to streamline the risk assessment process >>

Contact IT Governance for all your IT GRC needs

NOTES TO EDITORS

IT Governance Ltd is the single-source provider of books, tools, training and consultancy for IT governance, risk management and compliance. It is a leading authority on data security and IT governance for business and the public sector. IT Governance is 'non-geek', approaching IT issues from a non-technology background and talking to management in its own language. Its customer base spans Europe, the Americas, the Middle East and Asia. More information is available at www.itgovernancegulf.com.
