

Sports Rehabilitation Market by Application, Product Type and Region

Sports Rehabilitation Marke:Global Insights, Industry Trends, Price Trends, Growth, and Forecast, 2018-2026

NEW YORK, NEW YORK, USA, June 6, 2018 /EINPresswire.com/ -- The report "<u>Sports rehabilitation</u> Market by Product (Implants, Arthroscopy, Prosthetic, Orthobiologics, Braces, Compression Clothing, Physiotherapy (Thermal, Ultrasound), Bandages & Tapes), Application (Knee, Shoulder, Elbow). The key factors driving the growth of this market include increasing incidence of sports injuries, continuous influx of new products & treatment modalities, and developments in the field of regenerative medicine. However, the high cost of orthopedic implants may hinder the growth of this market to a certain extent.

Sports medicine & rehabilitation is a central part of the healthcare industry. Sport rehabilitation focuses on understanding, preventing and treating sports and exercise-related injuries and musculoskeletal conditions. This branch of medicine holds equipment, medication, and training regimen which is proposed to impart the maximum strength and portability that a patient had before entering a debilitative state. Once a patient undergoes treatment as well as surgeries for their physical inability, they need physical rehabilitation with a specific end goal to continue ordinary life and daily exercises. The sports rehabilitation market, in terms of revenue, which was valued at USD 3,849.7 Mn in 2017 and is expected to reach US\$ 5,412.0 Mn by 2022. For Sample Report:

Sports Rehabilitation Market, By Product Type

The global sports rehabilitation market is segmented on the basis of product type which includes support and recovery products, body evaluation and monitoring products, accessories, body repair and construction products. The body monitoring & evaluation segment is expected to grow at a faster rate. This segment is leading the market due to increasing awareness regarding body performance during sports and the evaluation in determining the correct measure of treatment for various injuries occurring during sports. This segment is expected to grow at a CAGR of 7.6% throughout the forecast period.

Global Sports Rehabilitation Market, By Region, 2018-2026 North America is expected to hold the major market share over the forecast period. Advancements in the healthcare domain and growing focus of healthcare providers towards injury and trauma-related wounds is driving the market growth. The Asia Pacific is expected to be the fastest developing region over the forecast time period with around 15.0% share starting as of 2016. Increasing adoption of sports as a career and increasing awareness in regards to wounds would assist the overall market demand.
