

The Babel Resurgence: Book One—Emergent Vision Set For International Release

Author Jeffery Dale Cole to Release First Book in New Science Fiction Series

OSWEGO, NEWYORK, UNITED STATES, June 6, 2018 /EINPresswire.com/ -- American author [Jeffery Dale Cole](#) will soon be doing an international release of the first book in his new science fiction series, [The Babel Resurgence](#). Book One in the series is entitled [Emergent Vision](#).

For readers who enjoy variety of characters and deep, philosophical themes, Emergent Vision certainly fits the bill. As the reader connects with the characters, a journey of growth begins and they adventure together on a search for significance, love, and contribution to a cause greater than themselves.

Cole understands his "purpose as an author is to help lovers of fiction to see themselves in the characters so they will not only get an enjoyable and entertaining escape from the drudgery of life while reading his books but also gain an introspection into their own stories."

This science fiction series is unique in its concept as well as its perspective. The series is based on the premise—taken from the ancient account of the events at the Tower of Babel—that humanity has unimaginable potential when in a state of unencumbered communication and cooperation. This series explores the possible reasons why the ancient story has the Creator of humanity confusing their language thus stopping them from reaching their potential. It also imagines what the world will be like once the effects of the events at Babel are truly reversed.
