## "

The key to me is being different not for the sake of being different, but being the most authentic version of what you do. And definitely, it takes a willingness to be different..."

Sam Hunt

As Sam Hunt, one of the most popular country music singers in the US once mentioned, 'The key to me is being different not for the sake of being different, but being the most authentic version of what you do. And definitely, it takes a willingness to be different, because there was resistance for me early on, and I feel like that's usually the case when there's a certain paradigm or trend happening, and you step outside of that'. We all need to be true to ourselves and that's exactly the meaning of our lives. Surprise your friends with a message written in cool font developed by Typany Keyboard today!
