

# Explore the future of ocular gene editing and strategic drug delivery at SMi's Ophthalmic Drugs 2018

LONDON, UNITED KINGDOM, June 7, 2018 /EINPresswire.com/ -- SMi Group are delighted to welcome the expertise from a senior panel of big pharma and ophthalmic organisations, as well as regulatory bodies, at the 2nd annual Ophthalmic Drugs 2018 [conference](#), taking place in November in the City of London, UK.

Outstanding speaker line-up for 2018:

The event will address the impact of the overwhelming digitalisation such as artificial intelligence in drug discovery and how companies, from biotech's to pharma, need to adapt. It will also explore the future of ocular gene editing and a regulatory perspective of the industry. Hear from opinion leaders such as Roche, Santen, Aerie Pharmaceuticals, MHRA, Nightstar Therapeutics and more.

Reasons to Attend:

- Discover recent advances in the treatment of glaucoma
- Gain insight into the first FDA-approved gene therapy, developed for the treatment of inherited retinal dystrophy
- Discuss case studies on novel non-invasive and site-specific drug delivery strategies
- Examine the applications of artificial intelligence in drug discovery
- Explore the use of biomarkers and surrogate end-points from a regulatory perspective
