

The Intra gastric Balloons Market is expected to reach \$351.02 million by 2023

Americas dominates the Intra gastric Balloons Market during the forecast period. It is expected to reach revenue of \$132.55 million by 2023 at a CAGR of 24.85%.

HYDERABAD, TELANGANA, INDIA, June 7, 2018 /EINPresswire.com/ -- According to the new market research report by [IndustryARC](#) titled "By Treatment type (Endoscopic Intra gastric balloon, ReShape Duo, Abalon) & By Region (Europe, North America, Asia-Pacific, RoW)- Forecast (2018-2023)", the market is driven by the advancements in technology and growing expenditure towards health.

Americas dominates the Intra gastric Balloons Market

Americas dominates the Intra gastric Balloons Market during the forecast period. It is expected to reach revenue of \$132.55 million by 2023 at a CAGR of 24.85%. The reason for growth in this region is the increase in quality of the medical facilities provided. The countries in this market include US, Canada, Mexico, and Brazil. In North America, weight problem is the most common chronic condition. More number of women suffers from obesity than men in the Americas due to unhealthy lifestyles and food habits. An individual's behavior, status, culture, and environmental factors are also responsible for overweight and obesity. The gastric balloon technique is used for weight loss in America.

Selected Analysis done in the full Report:

The fluid filled Intra gastric balloons segment generated a revenue of \$67.29 million in 2017. It is expected to generate \$311.77 million by 2023, at a CAGR of 23.54%. Obesity is a serious problem which leads to heart diseases, type 2 diabetes, stroke, and cancer. Many new fluid balloons have been developed globally for treating adverse effects of obesity. The fluid filled balloon occupies one third of the stomach cavity. This reduces the quantity of food that the stomach can hold. The balloon ensures that the food stays in the stomach for a longer period. Hence, the person has a diminished appetite and is satisfied with less food.

The market for Air-Filled Intra gastric Balloons is set to see an upsurge due to its advantages over Fluid-Filled Intra gastric Balloons. The market revenue was \$8.76 million in 2017, and is poised to reach \$51.65 million till 2021, growing at a CAGR of 37.39% during the forecast period 2017 to 2021.

What can you expect from the report?

The Intragastric Balloons Market Report is Prepared with the Main Agenda to Cover the following 20 points:

1. Market Size by Product Categories & Application
2. Market trends & Relevant Market Data
3. Manufacturer Landscape
4. Distributor Landscape
5. Pricing Analysis
6. Top 10 End user Analysis
7. Product Benchmarking
8. Product Developments
9. Mergers & Acquisition Analysis
10. Patent Analysis
11. Demand Analysis (Revenue & Volume)
12. Country level Analysis
13. Competitor Analysis
14. Market Shares Analysis
15. Value Chain Analysis
16. Supply Chain Analysis
17. Strategic Analysis
18. Current & Future Market Landscape Analysis
19. Opportunity Analysis
20. Revenue and Volume Analysis
