

# Memory Automated Test Equipment Market Import | Export Outlook and Global Foresight 2022

---

*Memory Automated Test Equipment Market - What's New Trending For 2018 - 2022?*

PUNE, INDIA, June 12, 2018 /EINPresswire.com/ -- The Automated Test Equipment Market statistical report, published by Market Research Future contains succinct information on the [memory automated test equipment](#) market, segmented by application (consumer electronics, automotive, aerospace & defense, telecommunication, and others) and forecast from 2016-2022. The various factors driving the ATE Market are rising complexities in the design of consumer electronic devices, requirement of High efficiency of the ATEs for increasing the throughput, and strong rise in applications in the automotive market.

Memory semiconductors are majorly used in memory chips of semiconductors. They are also used in module manufacturing assembly houses. These memory chips are in low cost and portable and have vital usage in service industry, computer service technicians and RMA department. These memory testers are built with very complex test algorithms to find out the memory faults during the final stages of memory chip packaging. Memory chip manufacturers such as, Samsung, Hyundai and Micron are some the major players in this field.

Global Consumer Electronics Memory ATE Market is expected to reach USD 0.59 Billion by 2022 with a CAGR of 2.5%
