

PCS Software Releases TruckerHosting.Com

Genuine, High-Powered Trucking Websites in Minutes

SHENANDOAH, TX, UNITED STATES, June 12, 2018 /EINPresswire.com/ -- [PCS Software](#) is pleased to announce the release of [TruckerHosting.Com](#). This new product allows trucking and logistics companies to create their own dynamic and sophisticated websites with advanced transportation-specific features built-in.

TruckerHosting.Com websites include modern, responsive designs that are easily customizable by the customer so that each TruckerHosting.Com website is unique and always high quality. All customization features are simple to use and require absolutely no coding and no design experience. Absolutely any transportation company can create their own attractive website in minutes.

In addition to design capabilities, all TruckerHosting.Com websites include the following features:

- Available Load Board
- Available Truck Board
- Online Driver Applications
- Online Carrier Onboarding
- Online Rate Quote Requests
- Online Freight Pickup Requests

TruckerHosting.Com customers that utilize the Express TMS by PCS Software to manage the operations and back office duties can also include Freight Tracking features on their websites that allow their customers to receive and review load status updates, documentation and invoices.

About PCS Software

PCS Software has been developing state-of-the-art, fully integrated transportation management and accounting software since 1997 and today serves almost a thousand Full Truckload, LTL and Intermodal trucking and brokerage companies throughout the United States and Canada.
