

Zizion Group launches ShareOurVision.org with the goal to offer free treatments to veterans in need.

Zizion Group, announced the company has launched its Share Our Vision initiative to help offer appropriate treatments to needy veterans and children.

BOCA RATON, FL, USA, June 14, 2018 /EINPresswire.com/ -- Bruce Bertman, President of Zizion Group, announced the company has launched its [Share Our Vision](#) initiative to help offer appropriate treatments to needy veterans and children.

Today it is important we give back to those who are unable to take advantage of what we have to offer. We intend to provide free PRP kits to physicians who will donate their time to do the treatments.”

Bruce Bertman

Bertman stated, "In today's society it is so important that we give back to those who are unable to take advantage of what we have to offer. Share our Vision is an idea whose time has come. We intend to provide free PRP kits and Allografts to physicians who will donate their time to do the treatments for free. This is exclusively focused on helping veterans and children who otherwise could not afford this service. We are excited to be helping people change the quality of their life." Bertman continued, "In my travels I meet many veterans

having difficulty with orthopedic issues. By providing free treatments where we can, we are able to say, "thank you for your service" in a more meaningful way. We hope to expand the program to children in need that cannot afford it over the coming months. We are hopeful that over the next year we can increase our network across the country. We provide the kits and the physicians do the treatments. We are just launching but have high hopes. Any physician wishing to join us or [vendors](#) wishing to donate are welcome. This is a very worthy cause.”
