Gripper is a tool mounted on the equipment to grip work pieces. By opening and closing the fingers powered by electric or pneumatic power, the gripper grips and releases work pieces.

Electric gripper and pneumatic gripper are two different types of gripper both widely used in various automation applications. Compared with pneumatic gripper, electric gripper are more cleaner grippers, need no air lines and save on power and maintenance, and electric gripper is more suitable to be used for detect grip.

Compared with pneumatic gripper, electric gripper is relatively a new born product; but the market of electric gripper is growing with a quite considerable speed. There are two types of electric grippers

which are commonly produced and used, which includes two-finger electric gripper and three-finger electric gripper. Electric gripper is environmentally friendly and much more silent at operating, and they are more suitable than pneumatic gripper in many application situations.

Worldwide, there are a lot of gripper manufacturers; and there is a growing number of enterprises entering the market attracted by the market potential. SCHUNK, SMC, IAI, Parker Hannifin and Festo are the top five manufacturers of gripper in the market currently; they account for more than half of the market total production volume of gripper.

North America and Europe are the largest markets of gripper currently; but the market of gripper in Asia-Pacific is forecasted to experience a higher growth speed in the following five years due to the growing downstream demand.

On the basis of product, this report displays the production, revenue, price, market share and growth rate of each type, primarily split into

Electric Grippers

Pneumatic Grippers

On the basis of the end users/applications, this report focuses on the status and outlook for major applications/end users, consumption (sales), market share and growth rate for each application, including

Automotive Manufacturing

Electronics/Electrical

Metal Products

Food/Beverage/Personal Care

Rubber/Plastics

Others

The study objectives of this report are:

To analyze and study the global Grippers capacity, production, value, consumption, status (2013-2017) and forecast (2018-2025);

Focuses on the key Grippers manufacturers, to study the capacity, production, value, market share and development plans in future.

Focuses on the global key manufacturers, to define, describe and analyze the market competition landscape, SWOT analysis.

To define, describe and forecast the market by type, application and region.

To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.

To identify significant trends and factors driving or inhibiting the market growth.

To analyze the opportunities in the market for stakeholders by identifying the high growth segments.

To strategically analyze each submarket with respect to individual growth trend and their contribution to the market

To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market
