

AppFutura publishes a report about Internet of Things development

AppFutura has published today a brand new report about Internet of Things mobile app development, its multiple applications and the risks associated to it.

BARCELONA, SPAIN, June 14, 2018 /EINPresswire.com/ -- AppFutura, leading community for [mobile app development companies](#), has published today a brand new report about Internet of Things mobile app development, its multiple applications and the risks associated with it.

Based on the feedback by some [top Internet of Things app developers](#), the report discloses their opinion on IoT app development and the potential for this technology, which is increasing its relevance thanks to beacons, smart homes and mobile payments. The report can be read [here](#).

As for the participants, these are the companies that have shared their thoughts on Internet of Things:

Konstant Infosolutions
AppInventiv
Promatics
Exaud
OCDLab
Umbrella
Dev Technosys
Aafilogic
Fluper

AppFutura helps you hire the best app developer for your project. The platform directories allow you to browse through various mobile app development companies and learn everything about a company's previous work experience thanks to client reviews and the app portfolio showcased on their profile.

AppFutura is a lead-generation platform that works in two main ways. First of all, as a worldwide listing, providing high exposure to app development companies that results in clicks to their websites and direct contacts. At the same time, it works as a project dashboard where businesses can publish their app development needs, receive development proposals from companies around the world and eventually hire their favorite through a safe Escrow system.

For those in need of more thorough support, the AppFutura team will help you select the best candidate for your needs and will also assist you during the whole development process.

App developers are welcome to join the AppFutura community and become listed in the directory of mobile app developers.
