*THE BEST INVESTMENT IN YOUR LIFE!*

*30 000 participants will get 10 EMI tokens each*

TALLINN, KESKLINNA LINNAOSA, ESTONIA, June 16, 2018

/EINPresswire.com/ -- At first I want to ask you. Have you ever had a dream where you have everything you want or need? Have you ever dreamed about the fantastic world where you own unlimited opportunities, skills and abilities? Personally I have dreamed about such things many times and it's normal for me, a young, ambitious, handsome and modest guy.

It would weird not to tell you about the fantastic world of unlimited opportunities which I found for myself. This world is called - [EIPlatform](#).

I don't doubt that you have the question: "What is the EIPlatform project?" What is this world of unlimited opportunities? First of all, EIPlatform is the Esports Interactive Platform, powered by blockchain.

As a short description - EIPlatform is the first global blockchain for esports, which connects sponsors, partners, investors and esports audience.

As a long description (I can make a huge description) -

EIP platform, based on the blockchain technology, will allow the widest part of the audience to directly participate in the development of esports.

Further development of the EIP blockchain will allow the widest audience to access the budgets of the leading brands.

Companies and Brands, using all the main advantages of blockchain technology, such as transparency and accessibility, will cover their demands for access to the target audience.

“

We are only at the beginning of tokenization”

CEO "Circle" Jeremy Allaire

This is just a short summary for you to understand what are you looking at, right now you are looking at the future! Not only the future of the world of Esport, but the whole world!

The EIPlatform project is the project of the future, that's why we look forward. We keep up with innovations, projects, trends etc. To create the Future you should be the Future.

It's not a secret that cryptocurrency like BTC, ETH and others have become more and more popular among people. Personally I won't be surprised if in some years, tokens will replace ordinary currency.

CEO "Circle" Jeremy Allaire says "We are only at the beginning of tokenization" In real sense, he meant that blockchain is now ready to transform every aspect of finance and also positively impact on all sectors of the economy.

So, to prove the position of my team and I, we have decided to make a great event. An type of event which humanity has never seen before!
