

# Sword Active Risk announces customer speaker line up for Active Risk Manager Conference in Washington DC

*Leading practitioners from global organizations in defense, utilities and infrastructure share best practice in managing enterprise risk*

HERNDON, VA, USA, June 18, 2018  
/EINPresswire.com/ -- [Sword Active Risk](#), a supplier of specialist risk management

software and services, has announced the customer speaker line up for its US Active Risk Manager Conference, being held in Washington DC on 19th & 20th September 2018, at the Hyatt Hotel. As well as keynote speakers from senior US Military advisors, the agenda includes presentations from world-class organizations including Bechtel, Ameren Transmission, Transurban and Elbit on how they use Active Risk Manager (ARM) in practice to manage risk in high profile enterprise projects.

It is always enlightening to learn how others approach and embed risk management processes to mitigate operational risks and costs”

*Keith Ricketts, Vice President of Marketing, Sword Active Risk*

The Washington event is the first in the conference series, with later events confirmed for London on 18 October and Sydney, 1st November.

Robert Webb from Bechtel, the engineering, project management and construction company, is scheduled for the US conference first day. Webb will discuss how Bechtel uses ARM as a standard application for risk and opportunity management on major projects around the globe, across a

range of industries.

The second day’s agenda includes Darin Hendry of Ameren Transmission Company of Illinois, which is responsible for more than 7,500 circuit miles of high-voltage transmission lines in Illinois and Missouri. Also on Day 2, Steve Lundquist of Elbit Systems of America and Transurban, recent winners at the StrategicRISK Asia-Pacific Management Awards will also present.

Keith Ricketts, Vice President of Marketing at Sword Active Risk commented; “We are delighted to welcome our customer speakers from different industries to share their experiences of deploying ARM to manage risk in critical, multi-million, high profile projects. It is always enlightening to learn how others approach and embed risk management processes to mitigate operational risks and costs. Feedback from previous conferences has shown that delegates find hearing about customer experiences from using ARM in practice is absolutely invaluable in addressing their own organizational challenges.”
