

Gabriel Btsh Builds Homes to Help his Country

Gabriel Btsh took over his family's company and expanded it to profit the whole of Panama by building homes for his country's people

PANAMA CITY, PANAMA, CENTRAL AMERICA, June 19, 2018 /EINPresswire.com/ -- [Gabriel Btsh](#) has built his legacy, not only for his family but for the people of his country. When Btsh started his real estate endeavors in the early 1990s, he had no idea what it would turn into.

While Btsh had always yearned to do what was right for his family and his country. Yet, he never dreamed success in both forms would come in such a rewarding form.

Not only does Gabriel Btsh get to promote the advancement of his father's company; he also promotes the well-being of Panama.

Building homes for people in need are one of the [most rewarding and exciting parts of his career](#). This is simply because of all the people he helps in the process.

Taking on the Project

Gabriel Btsh has developed many commercial and residential buildings throughout the country. The collective sum of these projects has surpassed one trillion dollars.

However, the heart of his real estate and construction endeavors has always been for the betterment of his country.

Since Btsh realized his true calling, his goal has never wavered: Not only was he building the company toward international success, he was also advancing the wellbeing of the Panamanian people.

Btsh took on the task of constructing twenty-four apartment buildings in Panama City.

Yet, these apartment buildings were not akin to The Santa Maria Golf & Country Club project he worked on. Nor, was the project going to break any records for ascetics or function.

This project had a far greater purpose.

Building Homes for Those in Need

The twenty-four apartment buildings would cater to families. They would be affordable living spaces and they would come to represent a comfortable and safe environment.

Focused on improving the lifestyle tenants, Gabriel Btsh and his team put together a plan that would revolutionize the buildings.

Even though the area was meant to be affordable from the start of the project, Btsh used all modern materials in his facilities. Instead of throwing together cheap workarounds, Btsh creatively structured

luxury in a safe, cost-effective manner.

Plus, he was able to add a little something special to the designs. Utilizing his architectural gift, Btresh was able to construct creative spaces, such as gyms, bars, Jacuzzis, and spas affordably. While his imagination didn't hamper the cost of the project, it certainly made the apartments stand out.

Finally, families who never thought they'd see the modern conveniences, never mind luxury, were able to afford one-of-a-kind craftsmanship. This changed the lives of the people who moved into the apartments forever.

Sticking to his convictions, Gabriel Btresh was all too happy to make the tenant's dreams a reality.

To close, [Gabriel Btresh has always seemed to know the route to success](#). Instead of keeping it to himself, however, he continues to utilize his gift to help Panama grow. While his father's company was what started him on his journey, young Btresh has certainly made it his own; bringing the wellbeing of his country with him every step of the way.
