Secure Logistics are design in such a way that they detects and access the management systems and provides relate to information and identity so that the security of your work environment is favorable and the process will be quick and easy.

Secure Logistics are developed with matching demand of the customers, which are firm in current time limits, where safety and efficiency are the starting points. This system adds unique information to a personal identity ensures the maximum awareness of the identity and maximum security about the user's identity and the dangers case or any fraud can be caught.

Increasing sense of outsourcing is also expected to fuel safe logistics demand from 2016 to 2020. The main factor contributing to the total outsourcing of cash management and security is the increase in the number of ATMs worldwide, which is estimated to be up by 42%.

The security service was more than 50% of the market and by the end of 2020, its market dominance could be sustained. Security services have manpower in the protection of important places like airports, embassies and public areas. Increased monitoring of geographical stress, terrorism and organized crime will lead to more stringent monitoring in high-risk areas. During the future period, there will be huge demand for both electronic and manpower protection and the market will cause growth.

The region wise, EMEA, which has more than 50% market share in 2015, is expected to increase steady prices during the forecast period. Considering the number of ATMs in Europe, with almost 80% of commercial transactions in Europe and up to 3.5 million by 2017, cash accounts will enable the safe logistics market in the EMEA sector to grow. Africa is an emerging market with key customers such as telecommunications, aviation, mining, oil and gas, embassies, and ports.

The major players are Brink's, G4S, Garda World, Loomis, Prosegur, Cash Logistik Security, CMS Info Systems, Paragon Security, Securitrans India, Securitas, SIS, Toll Group, and Writer Safeguard.
