

Educational Robots Market Opportunities by Key Players, Regional Segmentation and Forecasts, 2018 – 2025

PUNE, MAHARASHTRA, INDIA, June 20, 2018 /EINPresswire.com/ -- Global Educational Robots Industry

New Study on “2018-2025 Educational Robots Market Global Key Player, Demand, Growth, Opportunities and Analysis Forecast” added to Wise Guy Reports Database

This report studies the global Educational Robots market status and forecast, categorizes the global Educational Robots market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in United States, Europe, China, Japan, South Korea and Taiwan and other regions.

The major manufacturers covered in this report

Fischertechnik

Lego

Modular Robotics

Robotis

Innovation First International

Pitsco

Parallax, Inc.

Evolve

The educational robot is specially developed by the manufacturer in order to stimulate students' interest in learning, cultivate students' comprehensive abilities. It can be robot products, kit or parts. In addition to the robot body itself, there are corresponding control software and teaching textbooks and so on. Because of adapting to the new curriculum, educational robot has played a positive role in the cultivation and improvement of students' scientific literacy.

Major factors driving growth of this market include the increasing investment in education industry by Government and Non-governmental organization, the progress of robot manufacturing technology and the decrease of production cost. Furthermore a vast market demand is the key driving factor.

Wheeled robots are the largest segment in the educational robots market and are expected to occupy around 56% of the total market share. These robots are assembled in the shape of toys and are mainly used in elementary schools to engage and teach students. These robots are expected to be very much in demand because of the rising number of government initiatives in the deployment of students-friendly wheeled robots this segment sales is expected to grow at a CAGR of more than 5.14% during the forecast period.

South of USA market is expected to become the fastest growing market, increasing product mutuality

and availability is the key point.

South of USA is poised to grow at the highest CAGR during the forecast period owing to the increasing investment in education industry by local government, the increase in disposable income of local residents in this region, and rising focus of prominent players in this market increasing technology level.

The average price will fall further

The product average price declined in the past few years due to the technology development, the average price will keep this trend in the few future years due to increasing mature manufacturing technology and lowering cost of raw materials. Strong market competition is resulting in annual 2 percent price erosion.

The global Educational Robots market is valued at xx million US\$ in 2017 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2018-2025.

Geographically, this report studies the top producers and consumers, focuses on product capacity, production, value, consumption, market share and growth opportunity in these key regions, covering
United States

EU

China

Japan

South Korea

Taiwan

We can also provide the customized separate regional or country-level reports, for the following regions:

North America

United States

Canada

Mexico

Asia-Pacific

China

India

Japan

South Korea

Australia

Indonesia

Singapore

Rest of Asia-Pacific

Europe

Germany

France

UK

Italy

Spain

Russia

Rest of Europe

Central & South America

Brazil

Argentina

Rest of South America

Middle East & Africa

Saudi Arabia
Turkey
Rest of Middle East & Africa

On the basis of product, this report displays the production, revenue, price, market share and growth rate of each type, primarily split into

Wheeled robot
Humanoid robot
Others

On the basis of the end users/applications, this report focuses on the status and outlook for major applications/end users, consumption (sales), market share and growth rate for each application, including

Primary School
Secondary School
Others

The study objectives of this report are:

To analyze and study the global Educational Robots capacity, production, value, consumption, status (2013-2017) and forecast (2018-2025);

Focuses on the key Educational Robots manufacturers, to study the capacity, production, value, market share and development plans in future.

Focuses on the global key manufacturers, to define, describe and analyze the market competition landscape, SWOT analysis.

To define, describe and forecast the market by type, application and region.

To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.

To identify significant trends and factors driving or inhibiting the market growth.

To analyze the opportunities in the market for stakeholders by identifying the high growth segments.

To strategically analyze each submarket with respect to individual growth trend and their contribution to the market

To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market

To strategically profile the key players and comprehensively analyze their growth strategies.

In this study, the years considered to estimate the market size of Educational Robots are as follows:

History Year: 2013-2017

Base Year: 2017

Estimated Year: 2018

Forecast Year 2018 to 2025

For the data information by region, company, type and application, 2017 is considered as the base year. Whenever data information was unavailable for the base year, the prior year has been considered.

Key Stakeholders

Educational Robots Manufacturers

Educational Robots Distributors/Traders/Wholesalers

Educational Robots Subcomponent Manufacturers

Industry Association
Downstream Vendors

Available Customizations

With the given market data, QYResearch offers customizations according to the company's specific needs. The following customization options are available for the report:

Regional and country-level analysis of the Educational Robots market, by end-use.

Detailed analysis and profiles of additional market players.

Some points from table of content:

Global Educational Robots Market Research Report 2018

1 Educational Robots Market Overview

1.1 Product Overview and Scope of Educational Robots

1.2 Educational Robots Segment by Type (Product Category)

1.2.1 Global Educational Robots Production and CAGR (%) Comparison by Type (Product Category)(2013-2025)

1.2.2 Global Educational Robots Production Market Share by Type (Product Category) in 2017

1.2.3 Wheeled robot

1.2.4 Humanoid robot

1.2.5 Others

1.3 Global Educational Robots Segment by Application

1.3.1 Educational Robots Consumption (Sales) Comparison by Application (2013-2025)

1.3.2 Primary School

1.3.3 Secondary School
