

IT Governance launches new DSP Toolkit Documentation Templates with price offer

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, June 21, 2018 /EINPresswire.com/ -- Ely, United Kingdom, 21 June 2018 – IT Governance, the leading provider of cyber security consultancy and training, launched its brand-new [Data Security and Protection \(DSP\) Toolkit](#) Documentation Templates this week together with a 10% introductory discount for purchases before 2 July.

The DSP Toolkit Documentation Templates accelerate an organisation's compliance project and is designed to specifically support the health and social care sector. The [Information Governance \(IG\) Toolkit](#) has now been superseded by the DSP Toolkit as the data security standard for healthcare organisations, designed and developed by information security specialists.

Alan Calder, founder and executive chairman of IT Governance, said: “As cyber-attacks increase in frequency and severity, IT Governance continues to improve the capabilities of its products. With many years’ experience in the healthcare sector, IT Governance is well-positioned to aid those involved with their compliance projects.”

All NHS organisations and their partners must comply with the new DSP Toolkit by March 2019, although larger organisations are requested to submit the Toolkit to NHS Digital by October 2018. With IT Governance’s latest set of documentation templates, organisations will be able to access more than 80 tools, templates, policies and procedures, enabling users to save hours of unnecessary work and avoid errors.

As a leading provider of GDPR expertise and solutions, IT Governance can support organisations in initiating and maintaining a compliance project through [certified GDPR training courses](#), books, documentation toolkits, staff awareness, compliance tools and consultancy.
