Globally, Global Zirconia dental material is one of the growing markets. On the bases of region the global zirconia dental material market is majorly segmented into North America, Europe, Asia Pacific and Middle East & Africa. Globally North America commands the largest market for the zirconia dental products.

The zirconia crowns are used majorly as it is proved that it is the best material for making crowns and bridges. It is also used for creating a strong translucent tooth as compared to all-porcelain crowns. Zirconia crowns are considerably less expensive than all-porcelain crowns, and about the same price as gold-based metal-porcelain crowns. The zirconia crowns are slightly expensive than stainless steel. Also, because zirconia substrates can be milled with a laser milling machine, the substrates tend to fit better and are less labor-intensive than either a metal-procelain or all-porcelain solution, providing a superior product with a quicker turn-around at a lower cost.
