AppSec Consulting to Exhibit at PCI SSC Community Meeting 2018

AppSec Consulting to Exhibit at PCI SSC Community Meeting 2018

SAN JOSE, CA, UNITED STATES, June 26, 2018 /EINPresswire.com/ -- AppSec Consulting just announced that it will be exhibiting at the PCI SSC North America Community Meeting, the data security event of the year for the payment card industry, September 25-27 at The Mirage in Las Vegas. AppSec Consulting has a longstanding relationship with the PCI SSC and is a Payment Card Industry Qualified Security Assessor (PCI QSA).

Tony Fulda, Managing Director of Strategic Advisory Services for AppSec Consulting, and a well-known data security and privacy expert said, "AppSec Consulting is heavily invested in helping our customers meet their security and compliance goals through the Data Security Standard, and we've put together a team of some of the most experienced thought leaders in the payment security industry."

"

AppSec Consulting is heavily invested in helping our customers meet their security and compliance goals through the Data Security Standard with our team"
Tony Fulda, Managing Director

The PCI SSC (Payment Card Industry, Security Standards Council) North America Community Meeting provides information and tools that assist in securing payment data.

While the Community Meeting consists of networking opportunities, updates on trends within the industry, strategies and insights on best practices, and expert PCI speakers, we also invite our customers to join us at our exhibit as a part of our commitment to payment security.

AppSec Consulting always looks forward to participating in the Community Meetings and our team says "it's a great opportunity to share information with our friends, partners, and colleagues, as well as get insights directly from the Card Brands and the Council. We're expecting a big turnout and a lot of great information this year."

AppSec Consulting has been serving customers since 2005. The company began by providing application security and training services; over the past 7 years, the AppSec Consulting's focus has expanded to include a continuum of Strategic Advisory services, including SOC 1/2/3 and ISO 2700x audit preparation, PCI DSS advisory and audit services, Security Awareness and Training, Strategic Security Program development, and expanded Security Testing services for Mobile, Application, Web, and Networks. AppSec Consulting is a Payment Card Industry Qualified Security Assessor (PCI QSA)

helping merchants and service providers who process, store or transmit Visa (V), MasterCard Incorporated (MA), American Express Company (AMX), Discover Financial Services (DFS) and JCB transactions validate compliance with card brand Data Security Standards.

AppSec Consulting has a strong physical presence in the San Francisco Bay Area and Minneapolis-St. Paul marketplaces and employees in 8 states serving U.S. and worldwide customers in Financial Services, e-commerce, Technology, Healthcare, Service Provider, Retail, Hospitality and Transportation industries.
