

## Data Recovery Services Company Saves Customers Hard Drives At A Flat Rate

*ECO Data Recovery, a leading Florida data recovery firm, has helped of thousands of business and people which were in danger of losing their information.*

PALM BEACH GARDENS, FL, UNITED STATES, June 22, 2018 /EINPresswire.com/ -- ECO Data Recovery, a leading Florida based firm of data recovery experts, has come to the rescue of thousands of business and people which were in danger of losing their information.

[EcoDataRecovery.com](http://EcoDataRecovery.com) specializes in recovering data from RAID arrays, laptops and desktop computers, hard disk drives (HDD), solid-state drives (SSD), network area storage devices (NAS and SAN), removable storage media (SD cards, USB devices), cellular telephones, and tablets for all leading manufacturers.

Offering expedited data recovery service for personal, small business, business and government clients, the business has the highest recovery rates in the industry, together with the fastest turnaround times. ECO guarantees thorough, efficient, effective and confidential recovery of data. Their restoration experts have been recovering hard disk data from crashed hard drives and other media since 1995.

ECO Data Recovery business is basically a service-based business. They separate themselves by not making ridiculous or unsubstantiated claims such "cheapest", "fastest", "best", "most recoveries", "most successful", "only company who can...", etc..

They focus on the superior customer service. Kevin Raub, President of ECO Data Recovery, said, "I do not believe in scare tactics, hype or trashing competitors. We all know how scary it is for clients to lose data. That's the reason our attention primary focus is to recover the information."

**Data  
Recovery**

**Lost your data?  
We can help!**

Kevin continues, "We know that sometimes, clients look beyond the financial value and are attempting to relive or regain lost memories. We make it our goal to work with all our customers so that they may be reconnected with what they hold so dear."

In addition, the confidentiality of client data is quite important to them. ECO Data Recovery has a 95% client retention rate because of the fact that they promise our recovered data.

They take the confidentiality of our customers' data seriously and deliver recovered customer data in a timely manner, with an open line of communication between the engineer and the customer throughout the recovery process. Clients of ECO Data include financial companies and hospitals that have some of the most rigorous standards regarding data.
