

Electronic Flight Bag Market Import | Export Outlook and Global Foresight 2022

Electronic Flight Bag 2018 Global Market Analysis by Manufacturers, Trends, Segmentation and Opportunities Forecast to 2022

PUNE, INDIA, June 26, 2018 /EINPresswire.com/ -- One of the major factor that fuels the growth of the [electronic flight bag](#) market is the replacement of all paper-based manuals because it helps in the elimination of paper from the flight deck, which saves weight and makes it more convenient. Electronic flight bag increase effectiveness by providing a paperless cockpit and enhance safety. It replaces manual updating, logistical processes and renders a variety of aviation data such as checklist, aviation charts and performs calculations of performance data. Moreover, it also helps to ensure that they are always up to date and reduces delays. The other factor that is responsible for the growth of this market is the increased focus on safety as it helps to keep pilots up-to-date on live weather and assist in route management to avoid discretionary fuel burn. Therefore, the global electronic flight bad market is expected to reach 5,487.2 million by the end of 2021 and is expected to register a CAGR of 13.12%.

Regional Analysis of Electronic Flight Bag Market

North America dominated the market for electronic flight bag market, in 2016, and it is expected to reach USD 2257.3 million, by 2021. Concurrently, Asia-Pacific is projected to be the fastest growing market, attaining a CAGR of 14.1%, during the forecast period. Some major factors that would result in the region's rapid growth are the growing demand for air travel and commercial aircraft.

Key Players

The key players of global electronic flight bag market are UTC Aerospace Systems (U.S.), International Flight Support (Denmark), Astronautics Corporation of America (U.S.), The Boeing Company (U.S.), Esterline CMC Electronics (Canada), NavAero AB (Sweden), Airbus Group SE (France), Rockwell Collins Inc (U.S.), L-3 Communications Holdings, Inc, (U.S.), Teledyne Controls LLC (U.S.), Thales Group (France), DAC International Inc (U.S.), Lufthansa Systems (Germany), Flightman (Ireland). In 2016, the major companies such as The Boeing Company, Airbus Group, UTC Aerospace Systems, and Rockwell Collins accounted for over 50% of the global market.

The electronic flight bag (EFB) has witnessed a high demand in the recent years. It an electronic information management device that helps flight crews perform flight management tasks more easily and efficiently. As a result, the flight operations would become simpler and more efficient.

Intended Audience

- Electronic flight bag manufacturers
- Distributer & Supplier companies
- End Users
- consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

Product Analysis

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis

- Geographical analysis across 15 countries

Company Information

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies

The report for Electronic Flight Bag Market of comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions

Table of Content: Key Points

1 Introduction	10
1.1 Definition ...	10
1.2 Scope of the Study .	10
1.3 Assumptions	10
1.4 Market Structure .	10
2 Research Methodology .	12
2.1 Research Process	12
2.2 Primary Research	13
2.3 Secondary Research	13
2.4 Market Size Estimation	13
2.5 Forecast Model ..	15
3 Market Dynamics ..	16
3.1 Drivers	16
3.1.1 Safety	16
3.1.2 Replacement of all paper-based manuals	17
3.2 Risk ...	17
3.2.1 Cyber security issues	17
