SharePoint based Readymade Modern Digital workplace for Office365

Speaking at the launch of TITAN, [Ashish Kamotra](#), the Founder and CEO, Adapt Software India said, "As the Office365 user base worldwide is growing at the rate of more than 40% annually, the businesses having Office365 are now looking for readymade solutions to address their Intranet and collaborative needs. This Intranet-in-a-Box offers almost all key [collaborative features](#) and supports multi-companies, multi-languages and mobility."

The company now plans to target over 130 million existing business users of Microsoft Office365 through international partner alliances.

Ashish further added that TITAN will increase the consumption of Office365 by delivering faster ROI. Companies having Office365 have been spending massive amount on subscriptions and are now looking for solutions on top of Office365 to automate their business process. TITAN is the perfect answer as customers can go live within two week including user trainings. The upcoming versions of TITAN will have Artificial Intelligence and virtual help desk for all-important functions of the company.

ADAPT is now in the process of setting up strategic resellers in the Americas, the Middle East, India and South East Asia and plans to add 30 resellers over the next 6 months. Resellers will earn consulting fee in addition to the attractive monthly recurring revenues.

"We have started demonstrating TITAN to Microsoft Partners and we are getting an overwhelming response. I think there is a great demand for such readymade Intranet that offers flexibility and scalability," concluded Ashish on an optimistic note.
