

The Fiber Cement Market generated revenue of \$14.24 billion in 2017 and is projected to grow at a CAGR of 4.86%

Fiber cement composites have gained increasing concentration in American markets over the past few years.

HYDERABAD, TELANGANA, INDIA, June 27, 2018

/EINPresswire.com/ -- In the Report "Fiber Cement Market: By Type (Polypropylene, PVA, Glass Roving's, Mineral Fiber, Carbon, Kevlar, Steel, Asbestos, Lignocellulose, Others); By Production Process (Hatschek, Extrusion, Perlite, Others); By Product Type (Flat Sheets, Corrugated Sheets, Laminated Skirts, Shingle Slates, Planks, Others); By Application (Agriculture, Industrial, Residential, Non-Residential, Commercial, Others); and By Geography - Forecast (2017-2022)" published by [IndustryARC](#), the market will be driven by accelerating construction expenditures, specifically in new home siding, and commercial areas where fiber cement is a popular material.

America with major share in the Fiber Cement Market

Fiber cement composites have gained increasing concentration in American markets over the past few years. American market's progress in the housing and construction market has been steady. Fiber cement is widely accepted in the applications that were traditionally supplied by wood and other materials. Higher growth in urban housing sector in the world, especially in developing economies such as China and India, due to the exponentially growing population, has led to a strong demand for construction chemicals and products as fiber cement. The APAC region is the major shareholder, with respect to adoption. The continent has more than 35% share in the global fiber cement market, due to the presence of numerous raw material suppliers and an ever growing construction sector.

Selected Type Analysis done in the full Report:

Application of fiber cements in internal application involves partition walls, window sills, ceilings and floors. Residential application segment market value was \$1.26 billion in 2017 and is anticipated to reach \$1.75 billion by 2023 growing at a CAGR of 5.75% between 2018 and 2023. The market for fiber cement, based on its application, whether it is facades, panels, interior cement wall finishes or decoration, is segmented as Polypropylene, PVA, Glass Roving's Mineral Fiber, Carbon and many more. Polypropylene fiber type is the major shareholder with more than 30% share in the global fiber cement market and estimated to grow at a CAGR of 5.36% for the forecast of 2018-2023. The main attraction and advantage of using fiber cement are its excellent performance in severe weather conditions, inflammable nature, frost resistance, biological resistance and favorable vapor permeability.

Excerpts on Market Growth Factors

Fiber cement composites sidings are much lighter than aluminum and wood. These can easily be transported from the factory to the consumer. The light weight character helps in cost savings by reducing the use of fuel for transportation.

Industries are focusing on new construction projects. This ultimately bids into an opportunity for increase in production of chemicals and products in developed regions such as North America and Europe, occupy 30% of combined share in it. Asia-Pacific is leading the adoption for construction and reconstruction of infrastructure which will lead to a demand in production and sale.

Key players of the Fiber Cement Market

The dominating key players holding the latest development in the application market are as follows: Redco NV, James Hardie Industries Ltd., Eternit AG, Ma Yihe, Domtar Paper Company LLC, hefei Ruhie Decotation Engineering Co. Ltd., and others. The key players have some significant patents relating to fiber cement. Redco NV and James Hardie Technology Ltd. together published the maximum number of patents. Some of it includes HardiesPlank concrete Lap Siding, HardieBacker cement Board, ¼ IN. Cement Board. Saint Gobain S.A. applications for ceilings and dry wall, named as Gyproc fibre Cement Board and Aquaroc, are for internal use and for exterior fiber cement board applications.

Fiber Cement Market report is segmented as below

The Global Fiber Cement Market study across various end user industries is incorporated in the report.

A.Fiber Cement Market By Fiber Type

- 1.Polypropylene
- 2.PVA
- 3.Glass Roving's
- 4.Mineral Fiber
- 5.Carbon
- 6.Kevlar
- 7.Steel
- 8.Asbestos
- 9.Lignocellulose
- 10.Others

B.Fiber Cement Market By Production Process

- 1.Hatschek Process
- 2.Extrusion Process
- 3.Perlite Process
- 4.Others

C.Fiber Cement Market- By Product Types

- 1.Flat Sheets
- 2.Corrugated Sheets
- 3.Laminated Skirts
- 4.Shingle Slates
- 5.Planks
- 6.Others

D.Fiber Cement Market By Application

- 1.Agriculture
- 2.Industrial
- 3.Residential
- 4.Non-Residential
- 5.Commercial
- 6.Others

E.Fiber Cement Market by Geography (covers 10+ countries)

F.Fiber Cement Market Entropy

Companies Cited / Interviewed

- 1.VISAKA INDUSTRIES
- 2.HEKIM CONSTRUCTION INC. (1/2)
- 3.NICHIHA Co.,Ltd
- 4.HIL
- 5.Saint Gobain S.A
- 6.CEMBRIT HOLDING A/S
- 7.ELEMENTIA, S.A.B. DE C.V.
- 8.Everest Industries Limited..
- 9.MAHAPHANT FIBER CEMENT PUBLIC COMPANY LIMITED
- 10.Company 10+

B.Structural Adhesives Market

<https://industryarc.com/Report/16518/structural-adhesive-market.html>

What can you expect from the report?

The Apiculture Market Report is Prepared with the Main Agenda to Cover the following 20 points:

1. Market Size by Product Categories & Application
2. Market trends & Relevant Market Data
3. Manufacturer Landscape
4. Distributor Landscape
11. Demand Analysis (Revenue & Volume)
12. Country level Analysis
13. Competitor Analysis
14. Market Shares Analysis

5. Pricing Analysis
6. Top 10 End user Analysis
7. Product Benchmarking
8. Product Developments
9. Mergers & Acquisition Analysis
10. Patent Analysis
15. Value Chain Analysis
16. Supply Chain Analysis
17. Strategic Analysis
18. Current & Future Market Landscape Analysis
19. Opportunity Analysis
20. Revenue and Volume Analysis

About IndustryARC:

IndustryARC is a Research and Consulting Firm that publishes more than 500 reports annually, in various industries such as Agriculture, Automotive, Automation & Instrumentation, Chemicals and Materials, Energy and Power, Electronics, Food & Beverages, Information Technology, Life sciences & Healthcare.

IndustryARC primarily focuses on Cutting Edge Technologies and Newer Applications in a Market. Our Custom Research Services are designed to provide insights on the constant flux in the global supply-demand gap of markets. Our strong team of analysts enables us to meet the client research needs at a rapid speed, with a variety of options for your business.
