

Revolution Precrafted Forays into Europe, to Supply \$52M Worth of Hotel Villas in Spain

MADRID, SPAIN, June 27, 2018 /EINPresswire.com/ -- Revolution Precrafted, one of the strongest unicorns in Asia, continues its expansion campaign, this time, landing its first-ever it deal in Europe.

The prop-tech company has entered an agreement with BC Estudio, a leading architecture, design and property management company, to supply hotel and residential units along the Ebro Delta, situated in the province of Tarragona, Catalonia Region, Spain.

“We’ve always wanted to expand to Europe but we wanted a unique and high-impact project that would showcase our expertise and product portfolio. At the same time, we wanted a project that would shine a light on Europe’s ecotourism potential. We are very happy to partner with BC Estudio in spearheading a development that would further strengthen Spain’s tourism,” said Robbie Antonio, Founder and CEO of Revolution Precrafted.

Spain becomes the 13th international market for Revolution Precrafted, which is in the middle of a global expansion mode. It currently has projects in the Philippines, Myanmar, Indonesia, United Arab Emirates, Japan, Ecuador, Puerto Rico, Trinidad, Guyana, Jamaica, Bahamas and Bahrain. The company expects to be present in 25 countries by the end of 2018.

The partnership between Revolution Precrafted and BC Estudio came about following the former’s recent business roadshow in Europe this June.

Antonio said Revolution Precrafted and BC Estudio have agreed to build 50 units of hotel villas on a 12-hectare lakefront plot. This represents the first phase of what is envisioned to be a 260-unit development project on a total of four plots along the Ebro Delta.

As part of the initial phase, Revolution Precrafted will build around 40 1-bedroom villas measuring 30 square meters each. It will also build an additional 10 2-bedroom villas on the lakefront plot. Each unit costs a minimum of \$200,000.

The villas on the initial phase, will be accompanied by a main clubhouse measuring 700 square meters.

Gabriel Barba and Jordi Barba partners at BC Estudio said the tourism potential of the sites are significant considering their location. BC Estudio will work in collaboration with local partner office in

the delta del Ebro, Actua B Arquitectura.

The Ebro Delta is one of the largest wetland areas in the Western Mediterranean region. A large part of the delta was designated as a natural park to protect the wide variety of flora and fauna identified in the area. The Delta is composed of a mosaic of coastal and wetland habitats. It also has some 95 breeding species of birds. The wetlands are considered highly important for over 300 species of a wide range of transient and overwintering species and serves as an essential stopover point for large numbers of migratory birds and waterfowl.

On top of these, the Ebro Delta is also popular among tourists for its amazing beaches, sand dunes, rivers and lagoons. It is also one of the best fishing and water sports areas in Europe.

“We are very excited about this partnership with Revolution Precrafted. We have always wanted to create elegant, design-driven homes and villas that would cater to the thousands of tourists that visit the Ebro Delta all year-round,” Barba added.

Meanwhile, Antonio said the development of the masterplan will take several months while the construction of the hotel villas will start in early 2019.

“We are keen on completing the plans for this project by the 3rd and 4th quarter of this year with the intention of starting land development in early 2019.

ABOUT REVOLUTION PRECRAFTED

Revolution Precrafted is a global supplier of designer, limited edition homes, pavilions, retail spaces and related structures.
