## Description:

### Global Edible Oils Market Outlook Market Overview

Global edible oils market is flourishing on the back of its wide uses in various industries and household purposes. Growing number of health conscious consumers and growing concerns about food contents with fats and cholesterol contents that is responsible for various chronic diseases are major factors driving the growth of global edible oil market. Growing health concern is the major reason that is shifting the focus of manufacturers towards the development of healthy edible oils. Over past few years, major market players invested their efforts and huge investments over R&D to get best possible health beneficial edible oils. In current market scenario, major players are providing edible oils that help in balancing fat metabolism, lowering oil absorption during digestion and lowering blood pressure among others. Manufacturers extended their innovation and research endeavors from products to packaging to increase their consumer base. Manufacturers provide packaging solutions that prevents gurgling and facilitate smooth flow of oils, reducing spoilage. In the firm competitive edible oils market, major players are adopting various business strategies to sustain their existence and strong position in the market. For instance, Cargill Inc. based on U.S., acquired the Leonardo Olive Oil Business of Dalmia Continental Pvt. Ltd. in 2014. Leonardo is the leading brand of oil and a pioneer in establishing the popularity and use of olive oil in India. The acquisition will help the Cargill group to establish its business in India which is one of the major consumers of edible oil across the globe. Bunge Limited, a global food and agribusiness company acquired edible oil producers Walter Rau Neusser and Ana Gida in Europe in 2016. The company is also looking forward to complete its acquisition of Grupo Minsa in Mexico.
