

The Industrial Wireless Transmitter Market is estimated to hit \$3.85 billion by 2023

These transmitters are majorly used in the process industries, and also find application in the transportation and defense industries.

HYDERABAD, TELANGANA, INDIA, June 29, 2018 /EINPresswire.com/ -- According to the new market research report by [IndustryARC](#) titled "Industrial Wireless Transmitter Market: By Type (Level, Pressure, Temperature, Tank Gauging, Others); By Transmission Range (Short, Medium, Long); By End Use Industry (Industrial, Aerospace & Defense, Petrochemical, Others); By Geography - Forecast (2018-2023)", the market is projected to register robust growth owing to the increasing pollutant emission and water control laws. Asia-Pacific continues to lead the market share and growth during 2018-2023.

Asia-Pacific is the largest region for industrial wireless transmitters with revenue of \$672.97 million in 2017 and projected to grow to \$1.31 billion by 2023, followed by Americas and Europe. The increased usage of flow and level transmitters in chemical and waste water management industries is set to propel the market. APAC region is also forecast to exhibit the highest growth of 13.08% CAGR throughout the forecast period as stricter government emission regulations propel the flow transmitter market.

Selected / Sample Analysis done in the full Report:

Among all the types, Pressure Transmitters have exhibited high adoption in the Americas and European markets. APAC region is projected to grow at the highest rate of 13% through 2023 to reach \$325.9 million. The high demand from the automotive industry in APAC region will spur the growth of pressure transmitters in this region.

Among all the end-use segments, the Chemical/Petrochemical Segment is dominating with a revenue of \$401 million in 2017 and is expected to reach \$669.92 million by 2023 growing at CAGR of 9.59%.

Excerpts on Market Growth Factors Mentioned in the Full Report:

1. Stringent government policies and lower installation and maintenance costs of these transmitters are the one of key drivers for this market growth.
2. The major drivers include shale gas revolution in North America which will lead to increased adoption of wireless transmitters and the increasing demand for accurate measurements in order to improve operational efficiency.
3. The improving power consumption and energy efficiency of wireless transmitters is propelling the market due to increased demand for functionality and reliability.

Key Players of the Industrial Wireless Transmitter Market:

The top five companies in the Industrial Wireless Transmitters market include Schneider Electric (France), Yokogawa Electric (Japan), Honeywell International Inc. (U.S.), ABB Group Ltd. (Switzerland) and Emerson Electric (U.S.). The leading players are launching new products and establishing partnerships with end user companies, in order to augment their product portfolio and also to develop innovative products by leveraging the core competencies, thereby improving their product portfolio and enhancing market position. Schneider held the highest market share, owing to the large distribution network as well as the brand identity and expansive product portfolio.

Industrial Wireless Transmitter Market Report is segmented as below.

Industrial Wireless Transmitter Market By Type:

1. General purpose Transmitters
 1. Analogue Transmitters
 2. Cathodic Transmitters
 3. Discrete Transmitters
2. Level transmitters
 1. High level Switch
 2. Hydrostatic level Transmitter
 3. Liquid Level Transmitter
3. Pressure Transmitters
 4. Temperature Transmitters
1. RTD Temperature Transmitter
2. Thermocouple Transmitter
5. Flow Transmitters
6. Tank Gauging Transmitters
7. Others

Industrial Wireless Transmitter Market By Transmission Range:

1. Short Range Transmitters
2. Medium Range Transmitters
3. Long Range Transmitters

Industrial Wireless Transmitter Market By Medium:

1. Radio Transmission
2. Infrared Transmission
3. Light Transmission
4. Microwave Transmission

Industrial Wireless Transmitter Market By End User:

1. Industrial Automation
2. Chemicals/ Petrochemical
3. Aerospace and defense
4. Food and Agriculture
5. Energy and Power
6. Warehouse Management
7. Transportation
8. Water and Waste water management
9. Others

Industrial Wireless Transmitter Market By Geography (Covers 20+ Countries)

Industrial Wireless Transmitter Market Entropy

Companies Cited / Interviewed

1. Siemens Ag
2. Cannon Water Technologies Inc.
3. Avisaro Ag

4. Adcon Telemetry Gmbh
5. Datek Ab
6. Eltako Gmbh
7. Inovonics
8. Oleum Technologies
9. Suntor Electronics Co. Ltd.
10. Nokeval
11. Esi Technology Ltd.
12. Omega Engineering Inc.
13. Cooper Industries
14. Cooper Industries
15. Ametek Drexelbrook
16. Ascom Wireless Solutions
17. Company 17+

What can you expect from the report?

The Industrial Wireless Transmitter Market Report is Prepared with the Main Agenda to Cover the following 20 points:

1. Market Size by Product Categories
2. Market trends
3. Manufacturer Landscape
4. Distributor Landscape
5. Pricing Analysis
6. Top 10 End user Analysis
7. Product Benchmarking
8. Product Developments
9. Merges & Acquisition Analysis
10. Patent Analysis
11. Demand Analysis (By Revenue & Volume)
12. Country level Analysis (10+)
13. Competitor Analysis
14. Market Shares Analysis
15. Value Chain Analysis
16. Supply Chain Analysis
17. Strategic Analysis
18. Current & Future Market Landscape Analysis
19. Opportunity Analysis
20. Revenue and Volume Analysis

About IndustryARC:

IndustryARC is a Research and Consulting Firm that publishes more than 500 reports annually, in various industries such as Agriculture, Automotive, Automation & Instrumentation, Chemicals and Materials, Energy and Power, Electronics, Food & Beverages, Information Technology, Life sciences & Healthcare.

IndustryARC primarily focuses on Cutting Edge Technologies and Newer Applications in a Market. Our Custom Research Services are designed to provide insights on the constant flux in the global supply-demand gap of markets. Our strong team of analysts enables us to meet the client research needs at a rapid speed, with a variety of options for your business.

We look forward to support the client to be able to better address their customer needs, stay ahead in the market, become the top competitor and get real-time recommendations on business strategies and deals. Contact us to find out how we can help you today.
