

3D Medical Imaging Equipment 2018 US Market Expected to Grow at CAGR 5.11% and Forecast to 2022

PUNE, INDIA, June 29, 2018 /EINPresswire.com/ -- WiseGuyReports.com Presents "3D Medical Imaging Equipment Market in the US 2017-2021" New Document to its Studies Database

About 3D Medical Imaging Equipment

The medical imaging technique is used to generate a visual presentation of the interior organs for clinical analysis and medical interventions by physicians. In 3D medical imaging, two images of the same object are combined. X-ray, magnetic resonance imaging (MRI), computed tomography (CT), ultrasound, and single-photon emission computed tomography/positron emission tomography (SPECT/PET) methods are common 3D imaging techniques that are used for diagnosis of multiple diseases. Owing to the benefits like vivid images that gives better visualization, less damage to the surrounding tissues, and availability of high precision data, 3D medical imaging is being widely adopted by the physicians. Therefore, better visualization leads to accurate disease diagnosis and ultimately helps to develop personalized medicine for increasing the survival rate. For instance, the survival rate of patients with breast cancers has significantly increased with the help of 3D medical imaging as it reduces false positive result, thereby increasing diagnostic accuracy and efficiency.

Technavio's analysts forecast the 3D medical imaging equipment market in the US to grow at a CAGR of 5.11% during the period 2017-2021 .

Covered in this report

The report covers the present scenario and the growth prospects of the 3D medical imaging equipment market in the US for 2017-2021 . To calculate the market size, the report considers the revenue generated from the sales of the 3D medical imaging equipment..

Technavio's report, 3D Medical Imaging Equipment Market in the US 2017-2021 , has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- GE Healthcare
- Koninklijke Philips
- Siemens Healthineers
- FUJIFILM

Other prominent vendors

- Analogic

- ContextVision
- Dentsply Sirona
- EOS image
- Esaote
- Fuel 3D Technologies
- GENDEX DENTAL SYSTEMS
- Hologic
- i-CAT
- Intelrad Medical Systems
- PLANMECA OY
- Samsung Medison
- Shimadzu Corporation
- TomTec Imaging Systems
- TOSHIBA AMERICA MEDICAL SYSTEMS
- Viking Systems

Market driver

- Advent of cloud technology
- For a full, detailed list, view our report

Market challenge

- Threat from the substitutes
- For a full, detailed list, view our report

Market trend

- Emergence of hybrid medical imaging equipment
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

You can request one free hour of our analyst's time when you purchase this market report. Details are provided within the report.

Complete Report Details @ <https://www.wiseguyreports.com/reports/2431377-3d-medical-imaging-equipment-market-in-the-us-2017-2021>

Table Of Contents:

- PART 01: Executive summary
- PART 02: Scope of the report
- PART 03: Research methodology
- PART 04: Introduction
 - Market outline
- PART 05: Market landscape
 - Market overview
 - Five forces analysis
- PART 06: Market segmentation by product
 - 3D X-ray medical imaging equipment market
 - 3D ultrasound medical imaging equipment market
 - 3D MRI medical imaging equipment market
 - 3D CT scan medical imaging equipment market
 - 3D SPECT/PET medical imaging equipment market
- PART 07: Market segmentation by application
 - Gynecology and obstetrics
 - Cardiology
 - Neurology
 - Orthopedics
 - Oncology
 - Others
- PART 08: Market segmentation by end-user
 - Hospitals
 - Diagnostic centers
 - ASCs
 - Research centers
- PART 09: Decision framework
- PART 10: Drivers and challenges
 - Market drivers
 - Market challenges
- PART 11: Market trends
 - Emergence of hybrid medical imaging equipment
 - Growing preference for robotic X-ray procedure
 - New product launches
- PART 12: Vendor landscape
 - Competitive scenario
 - Key news
- PART 13: Key vendor analysis
 - GE Healthcare
 - Koninklijke Philips
 - Siemens Healthineers
 - FUJIFILM
