This report studies the global Baby Cribs and Cots market status and forecast, categorizes the global Baby Cribs and Cots market size (value & volume) by key players, type, application, and region. This report focuses on the top players in North America, Europe, Asia-Pacific, South America, and Middle East & Africa.

Baby cribs or cots are small beds, particularly made for infants or very young children. Baby cribs & cots are historically a recent development. The cage like design or walls provided in baby cribs & cots protect the child from falling off the crib. Infant beds are generally observed in regions affected by westernization, and employed by majority of parents, mostly because of cultural or traditional practices. Various product types of baby cribs & cots are available in the market that include standard, convertible, portable, travel, specialty, bassinet, and multifunctional baby cribs & cots.

Growing concerns over child safety, product improvements, growing awareness among consumers about sustainable products and improved living standard are key drivers to propel the market. Demand for a better lifestyle is one of the key factors responsible for the growth of the baby cribs and cots market at present, especially in the developing economies. The consumers in the developing countries have rapidly adopted the western culture and have altered their lifestyle accordingly. This, coupled with the rising birth rates has fuelled the demand for baby cribs and cots have complemented to the growth of this market. Further, the market is also driven the increasing consumer awareness about eco-friendly products made from sustainable wood and non-toxic paints which does not have any adverse effects on the baby. Europe is expected to dominate the market over the predicted period.
