Simple rules for a whistleblower from the Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy

any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant lying to their shareholders, Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or a New York based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded." <http://CorporateWhistleblower.Com>

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation. For more information a possible whistleblower with substantial proof of wrongdoing anywhere in New York State can contact the Whistleblower Center at 866-714-6466 or contact them via their website at <http://NewYork.CorporateWhistleBlower.Com>.
