

Beyond Security Announces Technology Partnership with CyberGuardAU

CUPETINO, CALIFORNIA, UNITED STATES, July 3, 2018 / EINPresswire.com/ -- San Jose, CA July 2, 2018 – [Beyond Security](#), a leading provider for automated security testing solutions including vulnerability management announced their technology partnership with [CyberGuardAU](#), an Australia based security solutions company that helps businesses across Australia by providing them with industry leading, reliable cyber security solutions for detecting and subsequently fixing security gaps in their computer systems and networks.

“Nowadays a new wave of hacking technology is emerging. With the increased number of readily available advanced hacking tools, virtually anyone can become a hacker” said Dmitry Sokoletsky, CEO and Co-Founder of CyberGuardAU. “At CyberGuardAU, we are excited about our partnership with Beyond Security and having the exclusivity on great products such as [beSECURE®](#). We are confident that together, we will be offering Australian businesses that extra security needed by assessing and managing their system's security level and discovering vulnerabilities thus stopping these hackers before they can even try” he also added.

“Information security is now a key component of national security, corporate survival and personal safety and freedom,” said Aviram Jenik, CEO and Co-Founder of Beyond Security. “We feel honored that CyberGuardAU has chosen Beyond Security to enhance their security solutions services. Secure computer networks and software products benefit everyone, and we hope that the partnership between CyberGuardAU and Beyond Security can continue to contribute to these vital areas”, he added.
