

CIPHR and HFX announce partnership to provide cloud-based flexible working and staff time management solutions

Strategic partnership brings specialist workforce management solutions within reach of Small and Medium-sized Enterprises

CODICOTE, HERTS, UK, July 3, 2018 /EINPresswire.com/ -- [HFX](#), a leading provider of SaaS flexitime and workforce management solutions, has signed a partnership agreement with CIPHR. The new partnership includes integration that brings together HFX's cloud-based workforce and time management solutions with CIPHR's range of HR, Recruitment and Learning solutions.

Rob Oehlers, head of customer experience at CIPHR said; "HFX's cloud-based products are a significant

extension to our own HR SaaS solutions. HFX's innovative approach to managing staff working time means that their products are both flexible, based on real world experience and requirements, while also being extremely useable."

“

We find the flexibility we can provide with our cloud-based model works really well in the SME market where agile companies are keen to maximise use of specialist technology”

Nicola Smart, Chief Operating Officer, HFX

Nicola Smart Chief Operating Officer at HFX commented: “CIPHR’s mid-market focus is an important segment for our products and services. We find that the flexibility that we can provide with our cloud-based model works really well in this market where agile companies are keen to maximise use of specialist technology. We are delighted to be working with CIPHR.”

Imperago solutions comprise:

Imperago Flexitime Management, is the market leading solution that is the preferred option throughout the public sector and local government organisations.

Imperago Time & Attendance (T&A), which is a powerful,

flexible and cost-effective solution that is both user-friendly and extremely easy to maintain. Imperago T&A is an all-in-one Service-as-a-Solution package that covers software, hardware, support and maintenance on a pay as you go basis with no upfront capital outlay. Imperago T&A is ideal for companies across all vertical sectors with 200 to 50,000 employees, particularly for those with shift-based workers.

Imperago Access Control provides a ‘light touch’ approach to securing and monitoring access to workspaces that requires very little infrastructure and significantly reduces the amount of cabling required. The door controlling devices offer the option of either biometric (fingerprint) or

proximity readers and are manufactured in the UK to HFX's detailed specification.

Imperago EveryOneCloud connects people and devices at whatever location, and logs time, supporting workforce planning and Time & Attendance solutions, enabling organisations of all sizes to monitor their staff and productivity. A cloud solution, EveryOneCloud can be ready to go within minutes, with no need for servers, software installation or heavy up-front costs. It integrates with and sends data to T&A, Payroll, Student Attendance and Workforce Management solutions (including rostering & shift management).

Imperago Workforce Design, the missing first step when implementing T&A solutions, is a powerful algorithm that provides staff-friendly and efficient rosters and shifts in a fraction of the time of a manual worksheet. It enables 'what if' modelling and scenario planning with ease.
