The New Mexico Mesothelioma Victims Center says, "We are urging all former plumbers or skilled trades workers in New Mexico who have been recently diagnosed with mesothelioma, or their family members, to call us anytime at 800-714-0303. We want to help get them pointed in the right direction when it comes to hiring a lawyer or law firm to assist with a financial compensation claim for this rare cancer caused by asbestos exposure. Get the lawyer or law firm part wrong, and the mistake could cost the diagnosed person or their family hundreds of thousands of dollars or more in lost compensation. We also do not want people with mesothelioma or their family to get overcharged by a law firm."

"Further complicating matters, hiring an attorney to assist with a mesothelioma compensation claim is a one-shot deal and there are typically no do overs. In other words, once you hire the

lawyer/law firm, you are stuck with them. It is for this reason we are urging a recently diagnosed person in New Mexico who was exposed to asbestos as an electrician, plumber, welder, insulator, or pipefitter to call us literally anytime at 800-714-0303 to ensure they know exactly what specific attorneys they should be talking to.

"Please don't shortchange yourself when it comes to mesothelioma financial compensation settlement because you hired an unqualified or inexperienced lawyer or law firm."

The New Mexico Mesothelioma Victims Center would like to emphasize theirs is a statewide initiative available to a diagnosed victim anywhere in New Mexico including communities such as Albuquerque, Santa Fe, Taos, Rio Rancho, Las Cruces, Roswell, or Farmington.

“

We are urging all former plumbers or skilled trades workers in New Mexico who have been recently diagnosed with mesothelioma to call us anytime at 800-714-0303 for suggestions about lawyers”

For the best possible treatment options in New Mexico we strongly recommend the following health care facility with the offer to help a diagnosed victim or their family get to the right physicians at the hospital we have indicated: The University of New Mexico Cancer Center, Albuquerque, New Mexico: <http://cancer.unm.edu/cancer/cancer-info/types-of-cancer/mesothelioma>

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, mesothelioma does happen in New Mexico. <http://NewMexico.MesotheliomaVictimsCenter.Com>

High-risk work groups for exposure to asbestos in New Mexico include US Navy Veterans, power plant workers, oil refinery workers, civilian employees of the Defense Department, manufacturing, or industrial workers, plumbers, electricians, auto mechanics, machinists, miners, or construction workers. Typically, the exposure to asbestos occurred in the 1960's, 1970's, or 1980's.
