

An Open Letter to the Secretary-General António Guterres and the UN Leadership of Member Countries.

Please consider using our wisdom formula and its practical applications to develop the ability to generate billions of dollars of your own income.

NEW YORK CITY, NY, UNITED STATES, July 7, 2018 /EINPresswire.com/ -- You all represent the very essence of greatness in terms of talent, expertise, and humanity. Your dedication and efforts to improve the world and make life better for all corners of the world are remarkably honest and efficient.

The banner features a table on the left with the following content:

Guru	+2
Adult	+1
Child	-1
Fetus	-2

To the right of the table is a large question mark and the text: **BRAIN POWER CLUB™** WHICH LEVEL OF THE MIND ARE YOU COMING FROM? Below this is a row of four small portraits of men. Further down is a 'Mind Brain' logo with a brain and wings. To the right of the logo is the text: 'Providing you with an effective new innovation of your brain and mind observing each other from an inside in perspective.' To the far right is a 'Mission Statement' box containing the text: 'Wisdom power is your (+2) guru/emotionally-healthy self-image power.'

Emotional intelligence comes from emotional health.

You succeed in making the [UN](#) as good as any top multi-national organization. Yet there is one remarkable difference between the UN and these other institutions. They not only generate their own income and are self-financed, they keep becoming bigger and bigger in assets.

“

The UN has the power to convert itself into a self-created, income producing financial giant that brings real peace, prosperity, health, happiness and wisdom to every nook and cranny of the world.”

Sajid Khan

On the other hand, for every single task, the UN asks for financing from the member countries. It is the age of the internet where individuals are creating billion dollar companies. The UN with its huge expert pool must lay out a plan to create a research wing where business ideas that generate income must be developed and implemented. You have the responsibility to improve the world through every which way you can. We are showing a clear path to a better

everything.

We at the 4th R Foundation have developed our own [Wisdom](#) Model that removes wisdom from the domain of philosophy and firmly puts it in the category of science. Our Wisdom Model has several life improving practical applications. We would like to donate our innovations to the UN. Just imagine if the UN implemented just one of our proposals to create Wisdom Lands in all corners of the globe. Just consider a wise world with all its rippling effects!

The panacea for the world's economic, social and educational ills is an emotionally healthy world. There is no manual or testing of emotional health (EH). Even though EH is 50% of health. No wonder the world is in such a mess.

My biggest invention: Emotional Health Quotient (EHQ). Please use this innovation in your countries.

Given the fact that The UN is staffed by the cream of the cream from every nation, it will not be difficult to convert the UN into another IBM level organization; with its own several revenue streams.

Kindly help in bringing this press release to the attention of all UN members.

Please give our president, Sajid Khan an opportunity to speak at the General Assembly to explain all this further.
