

ei3 demonstrates ongoing commitment to IoT cloud security

Receives ISO 27000 certificate of compliance from DEKRA Certification B.V.

MONTREAL, QUEBEC, CANADA, July 10, 2018 /EINPresswire.com/ -- ei3 Corporation, a premium provider of Industrial Internet services, announces today that it has received a certificate of compliance with International Standard Organization (ISO) 27001:2013 by DEKRA Certification B.V. This audit validates ei3's commitment to the safety and privacy of client data, together with the integrity of ei3's IT infrastructure and business practices.

"ei3 has truly set a benchmark by being the first company in the IIoT space in North America to have successfully attained the ISO 27001 compliance by Dekra. The IIoT industry is dynamically growing so it is very important that more and more companies get security right," says Dr. Cem Onus, the President and Managing Director of DEKRA Business Assurance.

"ISO 27001 compliant organizations will significantly differentiate themselves in the industry, by having this valuable competitive advantage," added Onus. The ISO 27001 is a globally standardized certification encompassing the three essential aspects of a comprehensive information security regime: people, processes, and technology.

Spencer Cramer, CEO of ei3 Corporation says, "Our company is proud to offer a highly secure solution that has now been evaluated by DEKRA to be following the ISO 27001 standard. With this foundation, we will continue to provide smart and secure services to our clients, while our team remains dedicated to security throughout every aspect – development, operations, and our customer support."

"The achievement of ISO 27001 upholds ei3's promise to put data confidentiality and privacy controls firmly on top of the agenda to protect our client's interest. This is a compelling proof that ei3 uses every safeguard when dealing with sensitive and personal data of its clients and partners," says Craig Rowles, Chief Information Security Officer at ei3.

YOUR DATA SECURITY
IS OUR PRIORITY

The ei3 IIoT solution improves machine productivity, increases yield and reduces energy consumption in a highly secure, white-labeled experience.

About ei3 Corporation

Founded in 1999, ei3 Corporation powers turnkey, premium machine-builder Industrial IoT programs with its scalable multi-tenant Software-as-a-Service. ei3's solution improves asset performance, increases yield, transforms the service business, enables predictive maintenance, and reduces energy consumption. It integrates seamlessly with machinery found in a wide range of discrete and continuous manufacturing industries. ei3 is headquartered in New York with offices in Montreal and Zurich. <http://www.ei3.com>
