

Free EU Webinar series launched by IT Governance

DROGHEDA, LEINSTER, IRELAND, July 11, 2018

/EINPresswire.com/ -- Drogheda, Ireland, July 10 2018 – A free, brand new EU [webinar series from IT Governance Europe](#), has been announced for July 20 to inform audiences on the benefits and strengths of an ISMS and how they can successfully implement one.

ISO 27001 certification is largely seen as the best data security move for any organisation and can fulfil the requirements outlined by cyber security standards. It demonstrates to existing and potential customers that an organisation has defined and put in place best-practice information security processes.

IT Governance runs free weekly webinars covering a broad range of cyber security topics. This brand new series will cover the following:

- [Webinar 1: How to overcome your data security compliance challenges](#) (20th July 2018)
- [Webinar 2: How to implement an information security management system](#) (20th August 2018)
- Webinar 3: Conducting a cyber security risk assessment (31st August 2018)
- Webinar 4: Assessing compliance: the ISO 27001 ISMS internal audit (28th September 2018)

GRC consultant Sharon O'Reilly said: "Information Security is now a business essential and ISO 27001 is the gold standard that organisations the need to adopt and to reduce breach risks and improve their security stance."

If you are interested in being part of this brand-new series please follow the link here to register your involvement and discover all the details.

IT Governance is known as the authority on ISO 27001, and offers a wide range of resources and guidance, such as books, toolkits, software, training courses and consultancy services.
