

The Two Products You Need to Prepare for Wireless Charging Only Phones

Aluratek Adds Two Wireless Charging Products to 2018 Collection

IRVINE, CA, UNITED STATES, July 13, 2018 /EINPresswire.com/ -- Aluratek, Inc (www.aluratek.com), a top 5 player in the digital photo frame space, has improved their 2018 mobile charging collection by adding the Qi Wireless Charging FM Clock Radio with Bluetooth Streaming (MSRP \$29.99) and Qi Wireless 10W Charging Mouse Pad (MSRP \$29.99). As the threat of an all wireless iPhone looms, these devices are perfect to place around your home.

The Qi Wireless Charging FM Clock Radio with Bluetooth Streaming is a versatile tool for any bedside table. The built-in Qi wireless charging pad on top of the speaker charges any wireless charging device. Stream music from a smartphone, tablet, or computer directly to the 3W channel speakers. Featuring an integrated microphone, you can accept incoming calls with hands-free convenience. The large LED screen displays time and FM radio station and works as an alarm clock with the ability to set up to five custom alarms.

The Qi Wireless 10W Charging Mouse Pad is the perfect addition to home workspaces or offices. The mouse pad combines the function of a sleek, minimalist mouse pad with a mobile phone stand and wireless charger. Just place your smart phone on the wireless charging pad and begin charging instantly. The built-in stand allows for comfortable viewing so no important phone calls or texts are missed while using the mouse pad.

“Wireless charging is becoming more and more prevalent,” says CEO of Aluratek, John Wolikow, “we want to ensure our customers are prepared for a completely wireless future.”

Both wireless charging devices are available at www.aluratek.com for \$29.99 each.
