

Booty Bands Launch Beta Back End To Select Members and Clients

CARLSBAD, CALIFORNIA, UNITED STATES, July 13, 2018 /EINPresswire.com/ -- San Diego, California - The initial launch of the Beta version of the new Booty Bands Member's Portal has met with fantastic reviews. In an effort to make the experience both effortless and more enjoyable, Booty Bands management had been working tirelessly to come up with a solution that gave their loving community members an experience they've never had before.

Throughout this period, the focus was to improve the entire esthetics of the portal and after almost spending 5 - 6 months of countless hours, the renovation has been completed. The beta version of the back end has now been made available to only a select few members with the full version expected to be released after a short while.

The original Members Portal was a convenient location for Booty Bands Members to go and find program workout and diet plans, as well as various videos from Danita Young, Co-Founder of Booty Bands.

Danita was inspired to take on a complete overhaul to give the community what they wanted and were asking for. Change Your Mind, Change Your Body, Change Your Life is more than a catchy phrase to Danita. She has integrated these ideas from conceptualization to near completion to make the Booty Bands Member's Portal a complete head to toe experience.

The Beta version is the first phase in the new release of content and material. Realizing that there is no one size fits all for fitness goals, Danita has designed two separate plans for her members. Tone and Slim, that will focus on losing weight, and Enhance and Grow that will put emphasis on helping to build curves.

One of the community members that was chosen to have access to the Beta version of the members portal was really impressed with the entire upgrade and really loved the idea of having everything in one place.

"It's amazing. Everything I need is in one place." She said. "I can't believe how much is now in the portal. I can do everything from workout, meditate, to meal plan. It has everything."

Another member who reviewed the Beta version of the members portal had nothing but good things to say.

"I had memberships to three different coaches before to get all that is now in the new membership portal. Needless to say, I've cancelled those other plans. I love it!"

However, the Beta version has only been released for testing purposes with the full version expected to be released later this month. Striving for excellence, Booty Bands management promises that there is more to come.
